Speaker Biographies

**Sherry Ahrentzen**
Sherry Ahrentzen, Ph.D., is Associate Director for Research at Arizona State University’s Stardust Center. Her research focuses on new forms of housing and communities to better accommodate the social and economic diversity of U.S. households. The Center’s research provides reliable information and new insights to inform design, development and policy decisions.

**Gregg Albright**
Gregg Albright is the Deputy Director of Planning and Modal Programs. He has 32 years of experience in State government service within planning, project delivery, project management, local programs and community involvement.

**Adélamar “Dely” Alcántara**
Dely Alcántara, Ph.D., is the Senior Research Scientist/Demographer at the University of New Mexico Bureau of Business and Economic Research. She has a Ph.D. in Sociology with specialization in Demography and Gender Studies. She has authored articles on gender roles, migration, poverty, education, population estimates and projections. She is a strong advocate for human rights and social justice.

**Eliot Allen**
Eliot Allen is an urban planner and founding principal of Criterion Planners, a Portland, Oregon firm established in 1979 with a focus on the environmental and energy performance of communities. He has prepared climate friendly plans for local and regional clients throughout North America, including the Chula Vista California Global Warming Reduction Plan that won EPA’s Climate Protection Award in 2003. Eliot is a charter member of the American Institute of Certified Planners, a former chair of the City of Portland’s Sustainability Commission, and currently an advisor to the Remaking Cities Institute at Carnegie Mellon University.

**Marni Allen**
Marni Allen is the Senior Research and Policy Associate at the 21st Century School Fund (21CSF). She has a background in urban policy and nonprofit management. Prior to joining 21CSF, she worked at the Brookings Institution, leading a research team on the intersection of investments in school quality, affordable housing, and neighborhood development in Washington, DC.

**Clark Anderson**
In November 2008, Clark Anderson took the position of Director of the Colorado Legacy Program at the Sonoran Institute. Prior to his move to Colorado, Clark was the Local Government Commission’s Water and Land Use Planning Specialist. He has been the principle staff person on LGC's State grant which has produced the Ahwahnee Water Principles, five fact sheets that address the disconnect between local land use decisions and water resources, and a guidebook and model water element that supports them.
Geoffrey Anderson
Geoffrey Anderson is President and CEO of Smart Growth America, a coalition of national, state and local smart growth advocates. Since 2000, he was the Director of the Development, Community, and Environment Division at the EPA which is home of the Agency's smart growth work. In this capacity, he oversaw the division's outreach, technical assistance, research, and policy activities. In 1996 he helped to create the Smart Growth Network, a network of more than 30 partners dedicated to improving the way we grow communities. Geoff received his Master's degree with a concentration in Resource Economics and Policy at Duke University.

Kristen Anderson
Kristen Anderson is a childcare planner who has developed childcare and early education policies and strategies for public and private agencies statewide, and led supply-building and quality improvements in Redwood City, California for two decades. Her book Planning for Child Care in California (Solano Press) highlights successful linkages of childcare and community development. She holds a Ph.D. from Stanford University.

Rick Anderson
Rick Anderson, Senior Planner at HDR, has over 20 years of experience working with the public, private, and non-profit sectors to develop environmental laws and policies. At HDR, his business practice is focused on designing software applications to improve the complex decision-making processes that shape our natural and built environments.

Jeffrey Ang-Olson
Jeffrey Ang-Olson is a Principal at ICF International. He has led numerous studies of the energy, environmental, economic impacts of transportation programs and policies for clients such as the U.S. DOT, U.S. EPA, and the Transportation Research Board, as well as state DOTs, MPOs, and air quality agencies.

Danielle Arigoni
Danielle Arigoni, AICP, is a Senior Policy Analyst with EPA's Smart Growth Office. Ms. Arigoni provides expertise on planning, housing, and community development, with nearly 15 years of public service and private consulting in the field. She is the author of “Affordable Housing and Smart Growth: Making the Connection”, and co-author of “Getting to Smart Growth: 100 Policies for Implementation.”

Christopher A. Atkinson
Christopher Atkinson, AICP, ASLA, is a certified planner with 14 years of professional practice experience. Recognized by numerous awards, he has assisted municipalities across the country to develop plans and urban design guidelines that revitalize downtowns, commercial corridors, and urban waterfronts, and integrate open space and green infrastructure systems into the urban context.

Martin Bailkey
Martin Bailkey is Vice-chair of the Dane County Food Council in Madison, Wisconsin. He is also Co-coordinator of the new North American Urban and Periurban Agriculture Alliance and a consultant to several food system organizations in the United States.

Panama Bartholomy
Panama Bartholomy is a graduate of Humboldt State University with a Bachelor of Science degree in Restorative Development and a candidate for a Master of Science in Community Development at the University of California at Davis. He is an advisor for Karen Douglas, a commissioner at the California Energy Commission where he advises her on climate change, land use, renewable energy, transmission, green building, and biofuels policy. He is a board member on the Northern California Chapter of the United States Green Building Council and the Humboldt Bay Center for Sustainable Living. He serves on the City of Sacramento’s Planning Commission and General Plan Advisory Committee and is a Commissioner on the County of Sacramento’s Environmental Commission. He previously worked for the California Conservation Corps on vocational environmental education and the Division of the State Architect where he ran the Sustainable Schools program. He has served as a judge for the Governor's Environmental Economic Leadership Awards program for 2003-2007 and served on the Governor's California Performance Review.

Debra L. Bassert
Debra Bassert is the Assistant Staff Vice President for Land Use Policy at the National Association of Home Builders and has more than 25 years of experience in land use planning. She manages a department that provides critical analysis of and recommended strategies on federal, state, and local land use laws and regulations as well as information and technical assistance on a wide range of land use planning, design, and development issues. She is Editor in Chief of *Land Development* magazine, a quarterly national publication now in its twentieth year, and oversees NAHB’s role in two partnership award programs, the Best in American Living Awards, with Professional Builder magazine, and the Building with Trees program, with the National Arbor Day Foundation. Prior to joining NAHB, Ms. Bassert worked on land use issues for local governments in Pennsylvania and for a private consulting firm in Arlington, Virginia. She holds a Bachelor of Arts in Economics from Bryn Mawr College and a Master's degree in Urban and Environmental Planning from the School of Architecture at the University of Virginia.

Sarah Bates
Sarah Bates served from 2007-08 as the Deputy Director for Policy and Outreach in the Missoula office of Western Progress, and is a senior fellow with the University of Montana’s Public Policy Research Institute. Sarah is a graduate of the University of Colorado Law School (1988), where she subsequently returned to serve as the Associate Director of the Natural Resources Law Center from 1991-93.

Paul Bay
Paul Bay is a transportation engineer who has helped plan and build rail transit systems in more than 25 cities, and has been outspoken about the responsibility design professionals have for their impact upon communities.

Dena Belzer
Dena Belzer is the founder and President of Strategic Economics, an urban economics research and planning firm based in Berkeley, California. She has over 25 years of experience working on economic issues ranging in scale from regional growth management to individual development projects. Ms. Belzer specializes in projects with complex settings and many actors, often requiring an innovative approach to the required research and analysis. Her particular specializations include retail and neighborhood revitalization, transit-oriented development, and economic development. Ms. Belzer also serves on the management team for the Center for Transit Oriented Development and had directed many of their ground breaking research initiatives.
Eric Bergman
Eric Bergman is Director of the Office of Smart Growth in the Colorado Department of Local Affairs. The office provides technical and financial assistance to local governments throughout Colorado in the areas of land use planning, sustainable development and growth management, and is involved in related legislative and policy issues. Eric holds a Bachelor of Arts in Philosophy from the University of Colorado at Boulder and a Master’s in Environmental Studies from Evergreen State College in Olympia, Washington. Prior to working in state government, Eric served as director of research and communications for Colorado Counties, Inc.

Autumn Bernstein
Autumn Bernstein is the Director of ClimatePlan, a network of leading organizations working together to ensure California promotes smarter land use to protect our climate, our health, and our economy. Prior to joining ClimatePlan, Autumn led grassroots campaigns to advance sustainable urban planning, promote transit, build affordable housing, and protect natural resource lands throughout California. Most recently, she was the Land Use Campaign Director for Sierra Nevada Alliance, a non-profit conservation organization based in South Lake Tahoe. She previously worked for Greenbelt Alliance and the Planning and Conservation League. She is the author of several publications including, most recently, Dangerous Development: Wildfire and Sprawl in the Sierra Nevada. Autumn graduated from the University of California at Davis with a Bachelor of Science in Conservation Biology. She is a fourth-generation Californian and lives in South Lake Tahoe.

Ariel Bierbaum
Ariel Bierbaum is the Program Director at the Center for Cities & Schools. Among other things, Ariel oversees the Center's Regional Planning and Education initiative, examining the reciprocal impacts of regional and local community development and education. Ariel holds an MCP from the Massachusetts Institute of Technology and a Bachelor of Arts in Urban Studies from the University of Pennsylvania.

Craig Blewitt
Craig Blewitt, AICP, is the Comprehensive Planning Manager for the City of Colorado Springs, Colorado. He has 25 years of experience in comprehensive and transportation planning and has worked for the City of Colorado Springs since 1985.

Pamela Block
Pamela Block is the Health and Wellness Director for the YMCA of Central New Mexico. She has promoted an active and healthy lifestyle as a fitness instructor, community center director, and wellness club owner. In addition to her current position, she has worked with the YMCA in Arizona, Connecticut and Oklahoma.

David Bois
David Bois, AIA, LEED AP, is the Associate Principal of Arrowstreet, an architecture and urban design firm. He is the lead architect on a major transit-oriented development, LEED-ND pilot project in the Boston area, and has worked on many projects, melding public financing requirements into the urban design of major downtown revitalization and transit-oriented development projects.

Consuelo Bokum
Ms. Consuelo Bokum is the Director of the New Mexico Water Project. She is actively working on many efforts to improve water management in New Mexico and has been working on water policy
issues since 1991. She has worked on three major water policy documents which are available at www.1000friends-nm.org <http://www.1000friends-nm.org/>

**Glen Bolen**
As Vice President of Fregonese Associates, Glen Bolen provides leadership within the company and is one of the firm’s core strategic decision makers. He provides guidance and supervision to the firm’s team of project managers and their staff. With 15 years of experience at the cutting edge of planning, he excels in project management and strategy, public involvement, ordinance writing, and scenario planning for scales both large and small.

**Tony Bologna**
Antonio R. Bologna is a Memphis Architect, Developer and Project Development Consultant. He is also a Fellow of the American Institute of Architects. As an architect, Tony headed the architectural and planning firm of Bologna & Associates, Inc. for 21 years, concentrating on restoration, revitalization and redevelopment. Tony is involved in redevelopment projects as a consultant under Bologna Consultants, LLC, which provides consulting services on the “Built Environment” to developers, architects, institutions and individuals.

**Laura Bonich**
Laura Bonich directs the sustainable design practice at Nolte, a leader in delivery of sustainable solutions for civil infrastructure. She has spent the last 20 years advocating for design code changes and engineering solutions for the planning and development of complex master planned communities and revitalization of mixed-use districts.

**Terry Bowling**
Terry Bowling has been in the retail food business for 30 years. He is the General Manager of LaMontanita Natural Food Markets in Albuquerque, New Mexico. He holds a Bachelor of Science and a Master’s degree from Tusculum College in Greenville, Tennessee.

**Dave Boyd**
Dave Boyd is a Senior Planner in Bothell, Washington, working for the past three years coordinating a major Downtown Plan to revitalize the community's historic core. Trained as an architect/urban designer at MIT and the University of Washington, he has worked as a consultant and in the public sector.

**Lavea Brachman**
Lavea Brachman is co-director of Greater Ohio, a statewide “smart growth” non-profit organization promoting quality land use and revitalization of existing cities and towns throughout Ohio. Lavea also serves as a Non-Resident Senior Fellow at the Brookings Institution. Through her Brookings affiliation, Lavea leads the Greater Ohio/Brookings Restoring Prosperity to Ohio Initiative, a non-partisan research, policy development, and coalition-building initiative aimed at reforming state policy to revitalize Ohio’s cities and towns and reinvigorate the state’s economic competitiveness. At Greater Ohio, Lavea also manages several other regional or statewide initiatives, including ReBuild Ohio, a statewide vacant property redevelopment coalition. She also serves on the National Vacant Property Campaign Advisory Committee. Lavea graduated from Harvard College and The University of Chicago Law School, and received a master’s in city planning from the Massachusetts Institute of Technology.

**Brian Brandt**
Brian Brandt has been with the American Farmland Trust (AFT) since October 1998, and currently serves as Midwest Director of AFT’s Agriculture and Environment campaign and Director of the Agricultural Conservation Innovation Center. He has played an integral role in a multi-disciplinary effort to develop innovative risk management tools to increase the adoption of best management practices. Specifically, he spearheaded the development of the Best Management Practices (BMP) Challenge program, which protects farmers’ income when implementing new agricultural conservation practices. Furthermore, he is playing a principal role in the development of ecosystem service trading programs for agriculture, which can encourage and fund the adoption of conservation practices on farms.

In addition to his many skills, Brandt has an intimate knowledge of production agriculture having been raised on a hog and cash grain farm in west central Ohio. Brian is actively involved in managing the family farm and with many family members and friends still actively engaged in farming, he maintains a vital link to the production agriculture industry. Brandt is a graduate of Ohio State University with a Bachelor of Science in Agronomy.

**Richard Brandt**
Art teacher Richard Brandt, a Who’s Who of America’s Teachers recipient, formed Dragon Farm at South Valley Academy High School in 2007. He is currently forming a non-profit (Project Renaissance: Art & Agriculture), which will employ 29 youth to create two major mural projects and a one-acre corn maze.

**Jeff Breckel**
Jeff Breckel has been the Executive Director of the Lower Columbia Fish Recovery Board (LCFRB) since the Board’s inception in 1998. The Board is the regional entity responsible for developing and implementing watershed recovery efforts over all or part of a six-county area in Southwest Washington.

**Teresa Brice**
Teresa Brice is an Arizona native and recognized community activist with over 25 years of experience in the non-profit sector. In 2005 - 2006 she was awarded the prestigious Loeb Fellowship through Harvard University, where she studied Smart Growth, an emphasis she brings with her as Executive Director of LISC Phoenix.

**John Bridges**
John Bridges is a Principal with EDAW, a worldwide planning, design and environmental consulting firm. He has a broad range of experience in urban and environmental planning over the past 30 years. Mr. Bridges is a Fellow of the American Institute of Certified Planners and has served as President of the APA California Chapter and Chair of the National APA Chapter Presidents Council.

**Mark Brimer**
Mark Brimer Ph.D. is a 2nd term Mayor of the Satellite Beach. The City Satellite Beach has a long interest in elder safety, and in August 2008, was designated as “Best Practice” by the Florida Department of Elder Affairs for their elder fall prevention and the home safety initiative.

**Allison Brooks**
Allison Brooks is Managing Director at Reconnecting America (RA) and the Center for Transit Oriented Development (CTOD), a national non-profit organization that is working to integrate transportation systems with the diverse communities they serve. Prior to joining RA, Allison served for over six years as a Program Officer at the East Bay Community Foundation where she spearheaded a number of
innovative and collaborative transit-oriented and community development projects across the Bay Area. She holds a Bachelor of Arts in Political Science from the University of California at San Diego and a Master’s in Sustainable International Development from the Heller School for Social Policy and Management at Brandeis University.

David Broudy
David Broudy, MPH, Ph.D., is an epidemiologist and sociologist with the New Mexico Department of Health. In addition to investigating and working to prevent communicable diseases, he has been working with community coalitions to develop community asset maps and resource guides. He is interested in democratizing access to information and technology. Training community activists in the use of geographic information systems and exploring alternatives to commercial software is a current interest.

Ben Brown
Ben Brown is a long-time journalist with stints at USA Today and Time, Inc. magazines. Since going out on his own in 1999, he has specialized in advocacy communications for New Urbanist projects. He directed communications for the historic Mississippi Renewal Forum charrette in Biloxi in the wake of Hurricane Katrina in 2005 and the 2008 Mountain Landscapes Initiative in western North Carolina. He joined PlaceMakers in 2008.

Wendel Brunner
Wendel Brunner is the Director of Public Health for Contra Costa County, a county of over one million people with 18 cities in the San Francisco Bay Area. The Health Department has been working with the City of Richmond to develop and implement a Health Element for the Richmond General Plan.

Cynthia Bryant
Cynthia Bryant serves as Deputy Chief of Staff and Director of the Office of Planning and Research for Governor Arnold Schwarzenegger. She has served in the administration since the governor first took office in 2003.

Roy D. Buol
Roy D. Buol was elected Mayor of Dubuque, Iowa in 2005 and has served on the City Council since 1995. A Dubuque native, Mayor Buol earned a business administration degree from the University of Dubuque. He retired from John Deere Dubuque Works in 2002 and serves as Director of the Landscaping and Grounds Department at his alma mater.

Dan Burden
Dan Burden has been on the road for twelve years helping villages, towns, cities and regions get their feet back on the ground. Since 1996 Dan has served 2,500 communities in all parts of North America. Dan photographs and learns from each community he visits. A number of towns now bring Dan back for validation and grade cards on improving their livability and walkability, guiding their road to economic and community health. Dan is the author of three books on street making and traffic calming.

Timothy Burroughs
Timothy Burroughs is the Climate Action Coordinator at the City of Berkeley, California. His role is to engage the community and the City government in the design and implementation of effective greenhouse gas emissions reduction strategies. Timothy is the lead city staff person tasked with coordinating Berkeley’s ongoing climate protection efforts. Timothy came to the City of Berkeley from
ICLEI – Local Governments for Sustainability. ICLEI is an international membership association of local governments working to find local solutions to global warming. There he managed the organization’s California-based efforts to provide policy and technical assistance to municipalities. Timothy has a Master’s degree in International Environmental Policy from American University in Washington, D.C., and an undergraduate degree in philosophy from Mount Saint Mary's College in Maryland.

Mark Butala
Mark Butala is the Manager of the Comprehensive Planning Division at the Southern California Association of Governments (SCAG). In this role, he develops and oversees programs for land use and transportation planning, regional comprehensive planning, and long-term Blueprint planning. Mark has served as SCAG's Compass Blueprint Project Manager since the program's inception in 2001.

Tom Butt
Tom Butt, FAIA, is a 13-year Councilmember for the City of Richmond, California and chair of the Local Government Commission. He is an architect by profession and president of Interactive Resources, an architecture-engineering firm located in Richmond. As a legislator, Tom has worked on smart growth, historic preservation, sustainability and Richmond’s Rosie the Riveter WWII Home Front National Historical Park.

Michael Cadigan
City Councilor Michael Cadigan is in his second term representing the Northwest part of Albuquerque, New Mexico. While on City Council he has served as Council President, Chairman of the Land Use, Planning and Zoning Committee, and Budget Chairman. He is the principal of Cadigan Law Firm, P.C. and a graduate of the Lewis & Clark Law School and the University of Arizona.

Cathy Calfo
Cathy Calfo is Co-Director of the Apollo Alliance, a national coalition of business, labor, environmental, and community leaders promoting clean energy, good jobs initiatives and polices at the federal, state and local levels. Prior to joining Apollo, Cathy served as California’s Deputy State Treasurer and worked to advance sustainable state investment practices.

Steven Caputo
Steven Caputo, Jr., is an architect and fellow for the Design Trust for Public space, and also a designer and sustainability consultant. He co-authored New York City's High Performance Infrastructure Guidelines in 2005 as a Fellow of the Design Trust for Public Space. He is currently working with the City's Parks Department to create design guidelines for sustainable landscapes. His background is in architecture and environmental policy.

Juan Cardiel
Juan Cardiel lives in Southeast Albuquerque. He has been a long-time member of La Raza Unida Youth Committee and was part of planning Jack and Jill Park and the original concept for the Weaving Our Communities Together through Art idea. He helped with a mural at Kalpulli Izkalli and is looking for work that satisfies his desire to serve the community.

H. Daniel Cessna
H. Daniel Cessna, PE, is the District Executive for District 11 of the Pennsylvania Department of Transportation serving the Pittsburgh metropolitan area consisting of 2,167 miles of roads, 1,796
bridges, and 4 tunnels. The District employs 805 people and has a $420 million annual budget. Cessna previously led a District Design Division and held management positions in Construction and Maintenance. He has been with PENNDOT since 1992 and holds a Bachelor of Science and Master’s in Civil Engineering from Penn State University and a Master’s of Business Administration from the University of Pittsburgh.

Rick Chaffin
As Assistant City Manager for the City of McKinney, Texas, Rick Chaffin oversees the Police, Fire, Public Works, Parks, Recreation and Open Spaces and Development Services departments. He also currently leads the McKinney Green initiative. Rick's diverse background includes serving as City Manager in Roswell, Georgia and other positions in local government.

Tim Chapin
Dr. Tim Chapin is Chair of the Department of Urban and Regional Planning at Florida State University. Chapin was lead editor for Growth Management in Florida: Planning for Paradise, published by Ashgate Press (2007). He has published numerous scholarly articles on development impacts and infrastructure planning, with a focus upon smart growth efforts in Florida.

Jim Charlier
Jim Charlier is a transportation planner. His firm, Charlier Associates, Inc., provides consulting services to public and private clients throughout North America with an emphasis on the western states. Charlier is an expert in “smart mobility” and sustainable transportation systems. He teaches Sustainable Urbanism at the University of Colorado.

Martin Chavez
Since returning to the Mayor’s Office in 2001, Mayor Martin J. Chávez has restored fiscal discipline and supported well-planned growth, rebuilt the public safety infrastructure and broken ground on a historic surface water project that puts Albuquerque’s long-range prospects on par with those of every other major city in the country. Mayor Chávez plans to further improvements to public safety, build on environmental sustainability initiatives such as the modern streetcar, and further support one of the nation’s fastest urban revitalizations. The Chávez vision is one of an attractive and exciting city where everyone feels safe and where young people can realize their personal dreams and professional aspirations without ever having to leave Albuquerque.

Don Chen
Don Chen is a Program Officer in Community and Resource Development at the Ford Foundation. Prior to joining the Foundation, he was the founding Executive Director and CEO of Smart Growth America (SGA). Under Don’s leadership, SGA created the National Vacant Properties Campaign, the Governors’ Institute on Community Design, and the Community Protection Coalition. Prior to SGA, Don was a researcher for the Surface Transportation Policy Project, World Resources Institute, and the Rocky Mountain Institute, and has a Bachelor’s Degree in Political Science from Yale University and a Master’s Degree from the Yale School of Forestry & Environmental Studies.

Greg Chew
Greg Chew is a Senior Urban Planner at the Sacramento Area Council of Governments (SACOG). Greg’s areas of specialty are in housing policy, regional growth management and Smart Growth implementation. He works extensively with local governments, neighborhood groups and development professionals to create more walkable, environmentally sustainable communities.
Scott Clark
Scott Clark is a Project Manager for the Local Government Commission, a nonprofit, nonpartisan, membership organization that supports local elected officials and other community leaders who are working to create healthy, walkable, and resource-efficient communities. Scott's work focuses on improving public health by increasing opportunities for active living through sustainable transportation and land use planning. Current projects include building collaboration between school districts and local governments on school siting issues, and analyzing state-level school siting policy. He holds a Master of Public Administration from the University of Arizona, serves as a board member for the Sacramento Area Bicycle Advocates, and has commuted by bike daily for 15 years.

Elaine Clegg
Elaine Clegg was elected to the Boise City Council in 2003 and re-elected in 2007. An Idaho native, she is the Special Projects Manager for Idaho Smart Growth and was a project leader for the Awahnee Award winning Treasure Valley Futures. Board service includes Valley Regional Transit, the Boise region MPO, Surface Transportation Policy Partnership and Safe Routes to School Advisory Committee, Idaho.

Rick Cole
Rick Cole is City Manager of Ventura, California since 2004. He was honored by Governing Magazine as one of their nine “2006 Public Officials of the Year”. Called “one of Southern California’s most visionary planning thinkers” by the Los Angeles Times, he previously served as City Manager of Azusa and Mayor of the City of Pasadena, California.

Kevin Colin
Kevin Colin is a reformed Euclidean Zoner pursuing Smart Growth implementation in the Bay Area. His municipal planner experience with Smart Growth and Form-Based Code’s includes contributions to the City of Ventura’s efforts to enable development projects in a system of improved clarity and consistency.

Cheryl Collart
Cheryl Collart serves as the Executive Director of the Ventura County Regional Energy Alliance (VCREA), a joint powers public agency, leading the Ventura region in California in energy efficiency and advancing sustainable energy practices. She is the first to hold the position, taking the VCREA through its startup phase in 2003, and positioning the organization as a model of 21st century governance.

Madeline Fraser Cook
Madeline Fraser Cook, Program Director, Green Development Center at the Local Initiatives Support Corporation, is a LEED AP urban planner with 8 years of experience in technical assistance to affordable green projects. She has an MCP from MIT and holds undergraduate degrees in Economics and Political Science from Swarthmore College.

Judith A. Corbett
Judith A. Corbett is the founder and for the past 27 years has served as Executive Director of the Local Government Commission, a nonprofit membership organization of mayors, city council members and county supervisors. The Commission analyzes the social, economic and environmental problems of our day and identifies proven strategies that local elected officials can use to address them. She holds a
Master of Science in Ecology from the University of California and was co-developer of the highly acclaimed Village Homes, a model for sustainable development. She has been named by Time Magazine as a "Hero for the Planet" and is the recipient of the 2005 American Planning Association's National Award for Distinguished Leadership by a Citizen Planner.

David Coss
David Coss was elected in 2006 to serve as Mayor of the City of Santa Fe, New Mexico, the oldest capital city in the United States, known internationally for its unique historic, cultural, artistic and creative heritage. Among Mayor Coss’ priorities is protecting Santa Fe’s water and environment. Mayor Coss considers supporting local businesses, the Santa Fe Living Wage Ordinance and affordable housing programs as integral to strengthening Santa Fe’s economy and supporting working families. He envisions Santa Fe becoming the sustainability and alternative energy capitol of the country.

Steve Cover
Steve Cover is currently Vice President of the HOK Planning Group in Atlanta, Georgia. He was previously Commissioner of Planning for the City of Atlanta and was responsible for long range planning including green space master planning, zoning, transportation planning, permitting and plan review, housing and code compliance.

Steve Coyle
Stephen Coyle, AIA, LEED AP, CNU, has over 30 years of experience as a "green" architect, urban designer, and public facilitator in a wide range of award-winning public and private projects around the nation. His specialty is integrating sustainable strategies in planning and coding new and redeveloped transit-oriented public and private developments. Steve, a national leader in the charrette process often used to facilitate public engagement in public planning, is co-founder of the National Charrette Institute (NCI), a non-profit organization that trains professionals in the art and practice of facilitating charrettes, and contributing author of The Charrette Handbook. He has lectured around the country on sustainable planning, from the annual American Planning Association and American Public Works Association conferences, to the College of Architecture and Engineering in Kathmandu, Nepal. Steve, a USMC combat veteran, is the founder and principal of Town-Green, a firm representing a group of dedicated 'green urbanists' who offer a comprehensive approach to sustainable community planning and urban design.

David Crossley
David Crossley is President and founder of Houston Tomorrow, where he focuses on urban growth and quality of life. Houston Tomorrow has led the Houston Smart Growth Initiative since 1998. He serves on the board of Smart Growth America, and is on the steering committee of America 2050.

Jennifer Cummings
Jennifer Cummings is the Administrative Director for the Funders’ Network for Smart Growth and Livable Communities, and works both in programmatic and administrative areas. Jennifer’s main responsibilities include Board relations, human resources, finance and budgeting, conference logistical planning, green building, and the inclusiveness initiative. Before joining the Network, Jennifer worked for the Kidney Foundation of South Florida as executive director responsible for all areas of non-profit management including special events, operations, board development, program management, community outreach, and communications. She also has experience in educational programming for the University of Miami and through her family’s business running seminars to dispel the fear of flying.
Jennifer graduated magna cum laude from Vanderbilt University with a degree in English and Russian. Daughter of a Peruvian mother and an American father who flew for Pan Am, she has traveled extensively and lived abroad.

**Wendy P. Curran**
Wendy P. Curran serves as a Senior Policy Advisor to Wyoming Governor Dave Freudenthal, working in the areas of health care, human services and community development. She is currently coordinating the Governor’s initiative to assist Wyoming communities as they work to welcome growth and prosperity and still protect the things and places that make Wyoming a special place to live.

**Matthew Dalbey**
Matthew Dalbey is a senior policy analyst with the US EPA’s smart growth program, where he works on a range of land use and development pattern issues. He is a practicing planner and a member of the American Institute of Certified Planners (AICP). He is a graduate of the College of William & Mary (BA), the University of Virginia (MCP), and Columbia University (PhD). See: www.epa.gov/smartgrowth

**Andrew Dannenberg**
Andrew L. Dannenberg, MD, MPH, is a Medical Officer in the National Center for Environmental Health at the Centers for Disease Control and Prevention in Atlanta, Georgia. He oversees CDC's activities related to the health aspects of community design and the use of health impact assessment as a tool to inform decision makers outside of public health about the health impacts of proposed projects and policies.

**Elke Wolf Davidson**
Elke Wolf Davidson is the President of Davidson Consulting, a business working with nonprofits, foundations and the public sector in the areas of affordable housing, community development and public health. Elke received her MCP/MPH from the University of California at Berkeley in 1994, and is interested in creating policies and coalitions that promote affordable housing, smart growth and healthy communities.

**Dan Dawson**
Dan Dawson, AICP, is Principal Transportation Planner with the Marin County Department of Public Works, managing bicycle and pedestrian planning and programming. He is the coordinator of the Nonmotorized Transportation Pilot Program in Marin County. He also has over 15 years of experience in land use planning and a degree in City and Regional Planning from California Polytechnic State University, San Luis Obispo.

**Elisa N. DeGregorio**
Elisa DeGregorio is the Marketing Manager of the Tampa Bay Partnership. She is responsible for creating, implementing, and coordinating all marketing, communications as well as proactive leadership driven programs that foster collaborative regional solutions. Ms. DeGregorio was instrumental in the creation and implementation of the award-winning “Tampa Bay Shines” community branding campaign and the regional visioning initiative called “One Bay.”

**Ellen Dektar**
Ellen Dektar works at the Alameda County Child Care Planning Council. Previously, she was a child and family policy analyst and planner for The Children’s Defense Fund, California Senator Gary K.
Hart, the California Senate Health & Human Services Committee, and the San Francisco Mayor’s Office of Children, Youth and Families.

**Rob Dickson**  
Rob Dickson is a New Urbanist real estate developer based in Albuquerque, New Mexico. He developed The Lofts at Albuquerque High and BelVedere/Urban Courtyard Living—total project value of about $50 million. He is actively pursuing similar mixed-use housing projects in the East Downtown area, including a neighborhood grocery and other retailers.

**Joe DiStefano**  
Joe DiStefano leads the regional and large-scale master planning team at Calthorpe Associates. He is an urban planner with more than 15 years experience in land use, transportation, and regional and corridor planning and policy. His work and research ranges from transportation and land use planning and policy to transit-oriented design and implementation strategies. Mr. DiStefano also specializes in the relationship between land use and climate and energy impacts and has lectured extensively on the subject.

**Christopher Duerksen**  
Christopher Duerksen, Esq., is the managing director of Clarion Associates of Colorado, LLC, a land use consulting firm with offices in Colorado, Florida, and North Carolina, and affiliated offices in Chicago, Cincinnati, and Philadelphia. He has represented local governments, nonprofits, and the private sector in a variety of land-use and zoning matters and specializes in sustainable development code revisions, growth management planning, historic preservation, natural resource protection strategies, and airport-area development. Chris co-founded the Rocky Mountain Land Use Institute at the University of Denver School of Law where he conceived and directs the Model Sustainable Development Code project. Duerksen has written and spoken extensively on land use issues across the United States and has authored many books and articles on land use and conservation issues, including *Nature Friendly Communities and Takings Law in Plain English*. He served two terms as an elected member of the city council in Fredericksburg, Virginia, and directed the Gateway/Stapleton Development Office for the City of Denver prior to joining Clarion. He has a law degree from the University of Chicago.

**Thomas Dunbar**  
Thomas R. Dunbar, FASLA, is Executive Director of the Center for Resilient Cities. Dunbar formerly served as Principal, Landscape Architect, and Planner for Dunbar/Jones PLC in Des Moines, Iowa. He is a past President of the American Society of Landscape Architects (ASLA).

**Christine Eary**  
Christine Eary helped develop and administer San Diego Association of Government’s (SANDAG’s) smart growth incentive funding program. She is also the project manager for a smart growth trip generation study and an annual regional comprehensive plan performance monitoring report. She received her Bachelor’s in legal studies and Master’s in City Planning from the University of California, Berkeley.

**Joseph Ehardt, Jr.,**  
Joseph Ehardt is an Urban Design Manager with HDR. He has over 40 years of experience as a project manager and urban designer on various scale multi-discipline projects. He holds a Master's Degree in Architecture and Urban Design from Washington University in St. Louis and a Bachelor's Degree in
Lee Einsweiler
Lee D. Einsweiler, AICP, is a principal with Code Studio in Austin, Texas. His work focuses on preparation of small area plans and development regulations that reflect smart growth principles. Recent work includes the creation of a new, context-sensitive zoning code for Denver; a model land use toolkit including zoning and subdivision for Louisiana communities sponsored by the Center for Planning Excellence; and, a series of mixed use/TOD districts for both Dallas and Prince George’s County, Maryland. His small area form-based codes are under consideration or have been implemented in Memphis, Tennessee; Ithaca, New York; and Charleston, South Carolina. Lee’s work also includes ordinances that control the mass and scale of residential development in an effort to retain community character and reduce the development of out-of-scale infill. Lee has been working with the Environmental Protection Agency’s smart growth office on the concept of a national model smart growth code. He is a frequent speaker at national conferences, and often teaches growth management to graduate planning students at the University of Texas at Austin.

Theodore Eisenman
Mr. Eisenman is Senior Editor on Scenic Hudson’s Revitalizing Hudson Riverfronts Through Responsible Development Guide. He was a panelist for the 2007 EPA National Award for Smart Growth Achievement, and has consulted for the National Park Service, U.S. Forest Service, and Washington, D.C. Department of Parks. He has written several articles on ecological design for Landscape Architecture magazine.

John Ellis
John is the Principal of Solomon, E.T.C. and is also an architect and director of urban design for the practice. Central to his many years of project experience is a commitment to urban repair and the principles of New Urbanism. Much of John's work involves developing revitalization strategies, whether it is at the scale of a downtown or a waterfront district. John teaches at the California College of Arts and Crafts in San Francisco and occasionally writes articles for the Architectural Review.

Juliet Ellis
Juliet Ellis is Executive Director of Urban Habitat, a regional environmental justice organization. Urban Habitat works in partnership with low-income communities and communities of color to advance social, economic, and environmental justice in the Bay Area region. Through advocacy and the promotion of equitable policies, leadership development, research, and participation in strategic coalitions, Urban Habitat helps to build a democratic society in which all communities have the power to influence and benefit from the decisions impacting their neighborhoods.

Edward Erfurt
Edward Erfurt is a Principal and Senior Urban Designer with the Orlando based Community Planning and Design Firm Town Planning and Design. Edward works around the country integrating urban design and architecture strategies for redeveloping suburban and urban environments. Edward has a Master of Architectural Design and Urbanism from the University of Notre Dame, and a Bachelor of Architecture from the University of Miami.

Marty Esquivel
Marty Esquivel, a partner in the Narvaez Law Firm, has represented a wide variety of private individuals, corporations and governmental entities in federal and state court litigation since 1989. He
practices in the areas of civil rights, employment law, school law and First Amendment law. He is a member of the Albuquerque Public Schools (APS) Board of Education and Chairman of the Capital Outlay Committee. All three of his children attend APS.

Reid Ewing
Reid Ewing is a Research Professor at the National Center for Smart Growth, University of Maryland, Associate Editor of the *Journal of the American Planning Association*, and columnist for *Planning* magazine. Earlier in his career, he served two terms in the Arizona legislature and worked on urban policy issues at the Congressional Budget Office.

Doug Farquhar
Doug Farquhar, J.D., is an attorney with over 20 years of experience working with policy makers on environmental health issues. For the past 17 years, Mr. Farquhar has directed the Environmental Health Program at the National Conference of State Legislatures. This program performs legislative analysis and outreach on state and federal environmental, health and trade laws; focusing on the delegation and authorization of federal and state laws; and provides legal and technical assistance to state legislators and agency staff on state, federal and international environmental, environmental health, and trade policies. He also provides testimony before state legislative committees and task forces; reviews and comments on legislation and regulations, drafts memos, articles and books on state environmental health policies; and represents state interests before federal and international bodies.

Doug Farr
Doug Farr is the founding principal of Farr Associates, one of the most sustainable architecture and planning practices in the country. Doug is on the board of the Congress for the New Urbanism, LEED for Neighborhood Development and wrote the book *Sustainable Urbanism: Urban Design with Nature*.

Billy Fields
Dr. Billy Fields is the Director of the Center for Urban and Public Affairs and Associate Director of the Gulf Coast Research Center for Evacuation and Transportation Resiliency at the University of New Orleans. His research background includes extensive work on the intersection of land use, transportation, and health.

Mary Filardo
Mary Filardo founded the 21st Century School Fund in 1994. She has written extensively on public school facility issues and developed software for master planning. Mary also founded the Building Educational Success Together (BEST) collaborative. She received a BA in philosophy and mathematics from St. John's College, and an MA in Public Policy and Finance at the University of Maryland.

Jonathan Ford
Dedication to traditional neighborhood design and a belief in interdisciplinary collaboration led Jonathan Ford to found Morris Beacon Design, a New Urbanist civil engineering and planning consulting firm. He is a 2006 Knight Fellow in Community Building at the University of Miami’s School of Architecture, and is co-founder and past President of the New England Chapter of the Congress for the New Urbanism.

Tom Forslund
Tom Forslund has been City Manager for the City of Casper since 1988. He has worked closely with state and local officials in Wyoming in regards to school siting issues. He is currently working with school officials to find appropriate sites for eight new schools in Casper.

Danielle Forsyth
Danielle Forsyth is the CEO and co-founder of Thetus after years of experience in software engineering, marketing and management. She has held key roles in the growth of many leading edge projects and companies, including Fortune 500 companies, the federal government, and others. Danielle has degrees in Math, Computer Science and Business.

Josh Foster
Josh manages the Center for Clean Air Policy’s (CCAP’s) Urban Leaders Adaptation Initiative, designed to equip U.S. partner cities and counties make effective policy and investment decisions to increase their resiliency to the impacts of climate change. Josh has 13 years of experience working on climate adaptation at the National Oceanic and Atmospheric Administration (NOAA) Climate Science Program Office as a manager for climate research applications and services. His work focused on decision support, drought and water resources management, local urban preparedness, and engagement with the private sector. He was the project manager for NOAA’s Climate Resilient Communities project from 2005-08 in collaboration with ICLEI-Local Governments for Sustainability. Josh holds Master’s degrees in International Relations and Environmental Management from Yale University, and a Bachelor’s in International Relations and Environmental Policy, Minor in Latin American Studies from the University of Massachusetts at Amherst.

Carla Francazio
Carla Francazio, AICP, serves on the Melrose Planning Board, and a principal in the firm To Be Designed working on smart growth and transit-oriented development projects, including Waterfront Square, a transit-oriented development project on the oceanfront in Revere, an inner-suburb of Boston.

Dr. Lawrence D. Frank
Dr. Lawrence D. Frank is the Bombardier Chairholder in Sustainable Transportation at the University of British Columbia and a Senior Non-resident Fellow of the Brookings Institution. He specializes in the interaction between land use, travel behavior, air quality, and health. He has been studying the effects of neighborhood walkability on travel patterns and sustainability for over 15 years. He has co-authored numerous papers and two books on these topics: Health and Community Design, The Impacts of The Built Environment on Physical Activity and Urban Sprawl and Public Health.

John Frece
John W. Frece is Associate Director of the National Center for Smart Growth Research and Education at the University of Maryland. He has been a spokesman, policy adviser and writer on Smart Growth issues for the past 11 years. He is author of Sprawl & Politics: The Inside Story of Smart Growth in Maryland (SUNY Press, July 2008).

Julia Freedgood
Julia Freedgood is Managing Director of American Farmland Trust’s (AFT’s) Growing Local campaign, a national initiative to promote healthy farms, healthy food and healthy communities. Since joining AFT in 1989, Freedgood has helped communities all across the country develop farmland protection programs and plans for agriculture, including a growth management plan for Lancaster County, Pennsylvania, Envision Lancaster, which was awarded the 2006 Outstanding Planning Award by the
Pennsylvania Planning Association. Ms. Freedgood has a Masters Degree in Urban and Environmental Policy and Planning from Tufts University.

**Patrice Frey**
Patrice Frey is the Director of Sustainability Research for the National Trust for Historic Preservation. She joined the National Trust after several years working in the field of community development and urban research. She is a graduate of the University of Pennsylvania’s program in historic preservation, where she received a Master’s degree in preservation planning and a certificate in real estate design and development through the Penn School of Design and Wharton Business School.

**Steven Frisch**
Steven Frisch is the President of the Sierra Business Council, an 800–member regional business organization dedicated to the advancement and implementation of sustainable business practices, smart community design, landscape level conservation and collaborative leadership in the Sierra Nevada.

**Jessica Frost**
Jessica Frost, AICP, has worked for the New Mexico Department of Transportation as the New Mexico Safe Routes to School (SRTS) Coordinator since 2006. Previously, she worked as Planning Director for the Town of Silver City, New Mexico. Jessica has a Master’s in Urban and Regional Planning, is a member of the American Institute of Certified Planners and currently serves as the Vice President of the New Mexico Chapter of the American Planning Association.

**Amy Frykman**
Amy Frykman works out of the Bozeman, Montana Office of Resource Media, a non-profit communications firm. She heads up Resource Media’s Land Use and Agriculture Program and was the lead author of “Beyond Planning,” a comprehensive analysis of land use media coverage in fast-growing small and medium-sized communities in the West.

**Jill Fuglister**
Jill Fuglister is Co-Director of Coalition for a Livable Future (CLF), a partnership of over 90 diverse organizations that promote healthy and sustainable communities in the Portland-Vancouver metropolitan area. During her tenure, CLF has successfully influenced numerous regional planning decisions so that they simultaneously advance environmental and social justice objectives.

**Darlene Fujii**
Darlene Fujii, RD, MEd is the Senior Program Specialist of the Alameda County Public Health Department/Nutrition Services Program. Darlene is a Registered Dietitian, holds a Master’s degree in Education from Tufts University, and has been a trustee on the board of a K-8 independent school in Oakland, California, for over 10 years. Ms. Fujii participates in the youth-adult HOPE Collaborative in Oakland.

**Lucy Galbraith**
Lucy Galbraith is the Transit Oriented Development Manager for Capital Metro, which is starting rail service in March 2009. Prior to joining Capital Metro, Lucy worked on land use, transportation, and urban revitalization at all scales, from Downtown Austin to the 10-county planning region. Lucy is a member of the American Institute of Certified Planners and the Congress for the New Urbanism. She graduated from Rice University with a dual degree in Mathematics and Economics and holds Master’s
Paula Garcia
Paula Garcia is a community leader, political activist, and aspiring farmer who dedicates her time to family and community. During her years of service to the New Mexico Acequia Association, acequias have built a movement around the principle that "el agua es la vida – water is life" and have achieved major policy changes locally and statewide. The Association also launched campaigns and programs to involve youth in agricultural traditions and to increase cultivation of foods of spiritual and cultural significance to native and traditional communities in New Mexico.

Rey Garduño
Rey Garduño is progressive in his values, passionate about equality, and proven in his service to Albuquerque. Born and Raised in New Mexico, Rey has lived in District 6 for over 30 years. Rey has spent a lifetime helping to make our community a better place to live and raise our families. With a long record of civic engagement, Rey knows the value of rolling up your sleeves, getting involved and finding innovative solutions to our city’s challenges. Rey has served in leadership roles with groups addressing open government, planned growth and environmental sustainability, and small business concerns.

Peter Garforth
Peter Garforth runs a specialist consultancy based in Toledo, Ohio. He advises companies, communities, developers, and policy makers on developing competitive approaches that reduce the economic and environmental impacts of energy use. His specialty has been in profitable business development implementing energy productivity. Peter is well known in the energy productivity community around the world.

Robert Garza
Robert Garza, P.E., is the current Assistant City Manager and Chief Operating Officer of the City of Las Cruces. He is a native New Mexican and a licensed engineer, with a background in public works, engineering design, construction, contracts, and inspections. He has 25 years of experience with city budgets for operations and capital improvement programs. Mr. Garza holds a civil engineering degree from New Mexico State University.

Christine Gibson
Christine Gibson’s (RN, PHN) current position as a Community Liaison Public Health Nurse for the Los Angeles County Department of Public Health includes overseeing various community projects. She is a lead staff member dealing with projects connecting the built environment and health. Christine Gibson earned her Bachelors in Nursing at California State University in 1999.

Denise E. Gilmore
Denise Gilmore is President and CEO of the Jazz District Redevelopment Corporation (JDRC) in Kansas City, Missouri. As President, Denise is leading redevelopment of the historic 18th & Vine neighborhood. Denise collaborates with community stakeholders to manage overall activities in the Jazz District. Also, she collaborates with planning groups to ensure that redevelopment of the district is focused and in keeping with the strategic plan for the area. In addition to the redevelopment activities, Denise is actively involved in the planning and execution of the annual 18th Vine Rhythm & Ribs Jazz Festival. Denise holds a Bachelor of Science degree in Accounting and Business Administration from Yale University. She has also taken courses in architecture and planning from the University of Texas at Austin.
the University of Kansas, and a Masters of Business Administration in Finance and Business Administration from Rockhurst University.

**Elinor Ginzler**
As Senior Vice President of Livable Communities Strategies at AARP, Ms. Ginzler spearheads the association’s work on housing, community services and mobility options. She received her BA from the University of Pennsylvania and completed her graduate studies at the University of Maryland.

**Parris Glendening**
Governor Parris N. Glendening is President of the Smart Growth Leadership Institute. Prior to his current role as President of the Smart Growth Leadership Institute, Mr. Glendening spent eight years as Governor of the state of Maryland, where he made the environment, especially smart growth education and inclusiveness, the heart of his legislative, administrative and personal agenda. He led the creation of a groundbreaking smart growth initiative that focused on using the entire $23 billion state budget as an incentive for smart growth.

In addition, Governor Glendening had the honor of being elected chairman of the National Governor's Association by his colleagues, where he made quality of life issues his top agenda item. He also served as President of the Council of State Governments. Before becoming Governor, Parris N. Glendening was a local elected official for more than 20 years. He began public service in 1973 as a city councilman in Hyattsville and was later elected to the Prince George's County Council in 1974. He was elected to state office after serving three terms as county executive of Prince George's County, a jurisdiction of 800,000 outside of Washington, D.C.

**Michael Goldberg**
Michael co-founded and is the CEO of ActionMedia in 1994, to help people working for positive social change to say what they mean. He has conducted nearly 100 focus groups around the US on voter attitudes toward issues of growth and development. For the previous sixteen years, he worked as a producer for public television, and as a reporter, producer, and Station Manager in public radio.

**Evan Goldman**
Evan Goldman is a Development Director with Federal Realty (FRIT). He is responsible for managing the redevelopment of Mid-Pike, a 20 acre shopping center in suburban Maryland. He joined FRIT in 2008 with ten years of development, finance, and architecture experience. Evan holds an MBA from Wharton and a B.S. in design from Cornell.

**Charles Goodman**
Charlie Goodman is the Director of Systems Planning at the Federal Transit Administration, with responsibility for managing FTA’s oversight, stewardship, and technical support of the federally required transportation planning processes. Charlie spent the first half of his transportation planning career with the metropolitan planning organization for Baltimore, MD., with responsibilities spanning policy, planning, and analytical arenas. Charlie served as Director of Transportation Planning before leaving to join FHWA in both the Planning and Policy Offices. Charlie joined FTA eleven years ago. Charlie holds a Bachelors in Economics and Master of Urban and Regional Planning from the Johns Hopkins University. He also is adjunct faculty at Towson University in Baltimore, teaching courses on various planning topics.
Thomas Gotschi
Thomas Gotschi, Ph.D., is an environmental scientist and epidemiologist. He is the Director of Research of Rails-to-Trails Conservancy, a national non-profit organization whose mission it is to build healthier places for healthier people. He is the author of “Active Transportation for America”, a report which quantifies the benefits from bicycling and walking.

Antoinette Gray
Antoinette Gray earned her law degree in 2002 and is currently working on a Ph.D. in Educational Leadership. She has served as an administrative director for seven years. She currently serves as the Housing Director at Central Detroit Christian (CDC) by way of the Central Woodward North End Collaborative.

Regina Gray
Regina Gray is a housing policy analyst in the Division of Affordable Housing Research and Technology for the Policy Development and Research office at the U.S. Department of Housing and Urban Development. She develops, manages, and conducts research on land use planning, growth management, and affordable housing issues. Her research interests vary widely, from urban planning, workforce investment strategies, and housing policy issues, to the broader scope of state and local politics and policy. Her work explores how state and local governments implement innovative strategies for overcoming regulatory barriers to affordable housing. Currently, Regina is investigating community approaches to inclusionary zoning practices and how they propose to address the challenges in the existing housing market. Additionally, she is working closely with EPA’s Office of Smart Growth to develop research on the linkage between sustainable development and green building. Her research has been recognized in several notable housing and urban planning publications. Regina holds a B.A. in political science from Emory University in Atlanta, an M.A. in political science and policy studies from the George Washington University in Washington, D.C., and a Ph.D. in political science and public policy from the University of Maryland, College Park.

Donna Green
Donna Green has been with the City of Portland Bureau of Transportation since 1990. In 2000 she joined the brand new Transportation Options Division. In 2004 she developed a program to encourage seniors to walk more within their communities, and in 2005 the successful Senior Strolls program was born.

Larry Greene
Larry Greene has founded and run several firms in the call center and direct response advertising brokerage and management services field. Currently he is a partner with Koeppel Social Marketing, which offers a broad range of mass media direct response marketing services to socially and environmentally responsible firms and organizations.

Vicki Greene
Vicki Greene is assistant director for the Southwestern Commission, the council of governments organization for the seven westernmost counties in North Carolina. A native of the rural mountain region, she has been working with town and county governments for some three decades. She's a veteran facilitator and a program leader in workforce development and other initiatives for the COG. Vicki was project manager for the landmark Mountain Landscapes Initiative to create a Toolbox of best practices for planning and development in the North Carolina mountains.
Ellen Greenberg
Ellen Greenberg is an urban planner working at the complex intersection of land use, transportation, and urban design. Her independent consulting practice provides planning, research and education services to public, private and non-profit clients. Ms. Greenberg holds Master’s degrees from UC Berkeley in Transportation Engineering and City Planning. In 2007-2008 she is Visiting Practitioner at the UC Davis Sustainable Transportation Center.

Jacky Grimshaw
Jacky Grimshaw is the Vice President for Policy, Transportation and Community Development for the Center for Neighborhood Technology. Responsible for the Center’s programs in these areas. Oversaw the development the Center’s capacity to engage in transportation research and policy development, conduct air quality modeling, GIS mapping, creation of public involvement tools and community economic development. Organized a Citizens’ Leadership Commission of over 190 groups with the charge of developing public consensus for Long-Range Transportation Plans with sustainable transportation options. Oversaw the development of the public involvement process, TransopolySM, Neighborhood TransopolySM and e-TransopolySM. Responsible for developing the Chicago Transit Authority’s university transit pass initiative. Current member of the regional planning agency, CMAP, Human Services Committee. Chairs TRB’s Committee on Environmental Justice in Transportation and a member of Committee on Women’s Issues in Transportation. Former member of the Board of Smart Growth America, current member of the leadership on the Smart Growth Network and was a member of the Illinois Growth Task Force.

Robert J. Grow
Robert J. Grow is senior counsel in Salt Lake City, Utah. Mr. Grow practices in the areas of land use, planning, zoning and real estate development. Mr. Grow has substantial experience in transportation issues for real estate projects, including individual subdivisions, retail centers, industrial parks, and large-scale master-planned developments.

Rachel Gutter
As the Senior Manager of the Education Sector for the U.S. Green Building Council (USGBC), Rachel Gutter works on a national level to promote and facilitate the design, construction and operations of high performance, green schools and higher education facilities. She oversees USGBC’s National Green Schools Campaign as well as the LEED for Schools Green Building Rating System, USGBC’s market-specific guidelines that recognize the unique nature and educational aspects of the design and construction of K-12 educational facilities. Rachel has six years of teaching experience and K-12 curriculum development. She received her Bachelor of Arts from Tufts University.

Laura Hall
Laura Hall is a founding Principal of Hall Alminana, Inc., a San Francisco firm that provides participatory planning, coding, and design services for neighborhoods, cities and regions. She is also Director of the Smart Growth School, offering practical training to planners who are transitioning from auto-based to pedestrian-based zoning codes.

Dan Hansen
Dan Hansen has more than 15 years of experience in the civil engineering profession with Perteet Inc. He has a Bachelor of Science in Civil Engineering from the University of Washington and is a registered Profession Civil Engineer in the state of Washington. He specializes in urban redevelopment
projects and is currently the Project Manager for the $90 million SR 522 Crossroads and SR 527 Boulevard projects in Bothell, Washington.

**Wes Hare**
Wes Hare, city manager of Albany, began his career with Oregon cities as an intern for Lowell in 1987 (pop. 955). Following completion of a graduate program in public affairs at the University of Oregon, he was hired as the city administrator in Oakridge (pop. 3,500) in 1988. Wes worked in Oakridge for more than 7 seven years before being named La Grande’s (pop. 12,500) city manager in 1995. He began work in Albany (pop. 47,500) in August 2005. Wes has lived most of his life in Oregon and now manages the city where members of his family settled in 1851. He has represented the International City-County Management Association as a consultant to local governments in rural Japan, Indonesia, Iraq, Croatia, Sri Lanka, Lebanon and Pakistan.

**Rodney Harrell**
Rodney Harrell is a Strategic Policy Advisor with the Public Policy Institute at AARP. His policy development and research areas include housing and livable communities. Dr. Harrell has a B.A. from Howard University, master’s degrees from Princeton University, and a Ph.D. from the University of Maryland.

**Paige Harris**
Paige Harris is a junior at Kennedy High in Richmond, California. Her experience in urban planning came with the West Contra Costa Transportation Advisory Committee's Summer Internship Program, where for nine weeks, she gathered data, surveyed, and visited places to produce a plan for a better Del Norte BART station.

**Jon Harrison**
Jon Harrison is a Senior Consultant for Local Government Applications with ESRI where he has worked for the past 25 years. He is currently also serving as Mayor of the City of Redlands, California, and as been on the City Council since 2001.

**Alison Hastings**
Alison Hastings is a Senior Environmental Planner at the Delaware Valley Regional Planning Commission (DVRPC), one of the nation's largest and most respected Metropolitan Planning Organizations. DVRPC is the regional planning forum for the Greater Philadelphia region, with a focus on transportation, land use, the environment and economic growth. Ms. Hastings manages DVRPC's Greater Philadelphia Food System Study, among other open space and farmland preservation projects. DVRPC's study looks at a broad range of food supply issues, such as agricultural production trends, natural resource constraints, the origins and destinations of food imports and exports, economic and workforce development opportunities, and the efficiency of transporting food from farm to plate. Ms. Hastings completed her undergraduate education at Cornell University and has a Master’s Degree in City Planning from the University of Pennsylvania.

**Bob Hearn**
Bob Hearn is a retired Research Engineer and Program Manager. He is the President of the Quality Growth Alliance of Doña Ana County in New Mexico, a volunteer group working for a sustainable future for Las Cruces and the County through improved planning and increased citizen involvement.

**Jennie A. Hefelfinger**
Jennie Hefelfinger, MS, is a private consultant and Project Manager for the National Association of Councils on Developmental Disabilities (NACDD) providing management for the ACHIEVE Initiative (A Connecticut Healthcare Initiative for Expansion, Value and Efficiency). Prior to this, she was with the Florida Department of Health for 19 years and ten years as the state’s chronic disease prevention and health promotion director.

**Erica Heller**
Erica Heller is an Associate Planner with Clarion Associates, based in Denver, Colorado. Ms. Heller works in the areas of land use planning, neighborhood planning, redevelopment/revitalization, growth management, and zoning. She has published and spoken to national and regional audiences on the topic of zoning for wind turbines.

**Jeffrey Heller**
Jeffrey Heller is founder and President of Heller Manus Architects, a multi-disciplined San Francisco firm working on projects ranging from low density to high-rise design. Their work includes public, commercial, restoration/adaptive reuse and residential. Mr. Heller has both Bachelor’s and Master’s degrees in Architecture and Urban Design from the Massachusetts Institute of Technology.

**Susan Henderson**
Susan is a PlaceMakers Principal and Director of Design. She is a practicing architect, respected urbanist and published writer. In addition to her role as the Architectural Team Leader for the Mississippi Renewal Forum after Hurricane Katrina, the largest planning effort in the last 100 years, Susan has led many SmartCode calibrations, including Taos, New Mexico; Lawrence, Kansas; New Castle County, Delaware; Early County, Georgia; and Driehaus Form-Based Codes Award-winning Leander, Texas. She is a contributor to the *SmartCode & Manual* as well as author of *Mississippi Renewal Forum: Architecture Report* and and co-author of *Traditional Construction Patterns*.

**Bridget Hennessey**
Bridget Hennessey currently runs the Advocacy Associates’ California office. She joined the firm in February 2006 and brings with her a broad array of experience in social welfare policy, community development policy and legislative strategy. At Advocacy Associates, Bridget works directly with clients to plan, strategize and implement their legislative agendas. Bridget Hennessey holds an M.P.P., with a concentration in Welfare Policy, from the George Washington University and a B.A. from Fairfield University.

**Danny Hernandez**
Danny Hernandez is a long-time alternative transportation, water resources and neighborhood advocate in Albuquerque, New Mexico. He is currently working on a Master’s in Community and Regional Planning at the University of New Mexico. On November 4th, 2008, he was re-elected to a third term on the local flood control board.

**Bob Heuer**
Bob Heuer is a National Greenprint Manager with The Trust for Public Land. He has managed a variety of greenprint projects, including Salem, Oregon; Deerfield, Massachusetts; Travis County, Texas; and the Upper Neuse Clean Water Initiative, North Carolina. Bob has a Master’s in Geography from the University of New Mexico with an emphasis in Geographic Information Systems (GIS) and remote sensing. He has extensive experience in all forms of GIS analysis, planning, and mapping.
Kimberley Hodgson
Kimberley Hodgson is a community health and food systems planner. She is the Manager of the Planning and Community Health Research Center at the American Planning Association. Over the past four years, Kimberley has worked with a variety of organizations in the research and design of healthy, sustainable communities.

John Hooker
John Hooker is an architect and the Director of Facilities and Capital Projects for Expo New Mexico in Albuquerque. As the former mayor of the Village of Los Ranchos de Albuquerque, he was involved in local and regional transportation planning and funding. John is a long-time advocate for aligning land-use, transportation and property tax policies to support Smart Growth.

Judith P. Hoskens
As senior educational planner and project manager in Cuningham Group Architecture’s Minneapolis office, Judy Hoskens has first-hand experience translating client goals and needs into unique building solutions. Through her participation on many projects, she has reaffirmed her belief that the best educational facilities result from the active participation of all stakeholders, including learners, educators, administrators, parents and community members. Judy is an active member of the Council of Educational Facility Planners International (CEFPI), is currently an at-large member of the International Board, and currently serves as President-Elect, a position she assumed in Fall 2008.

Deb Hubsmith
Deb Hubsmith is the director of the Safe Routes to School (SRTS) National Partnership, a growing network of more than 350 diverse organizations. She has worked on SRTS program implementation and legislative development at local, state and national levels for ten years, and was instrumental in securing the $612 million in federal SRTS funds through the 2005 transportation bill. See: www.saferoutespartnership.org

Andy Hume
Andy Hume, an Associate Planner with the Las Cruces Metropolitan Planning Organization (MPO), has seven years of experience in transportation planning, including bicycle and pedestrian planning. Andy led the MPO’s development of a Safe Routes to School (SRTS) program and directed the SRTS pilot project at Hillrise Elementary. He is a member of the American Planning Association and the New Mexico APA Chapter.

Gregory Ingram
Gregory Ingram, President and CEO of the Lincoln Institute of Land Policy, was formerly Director-General, Operations Evaluation at the World Bank, and was Staff Director for the World Development Report 1994, Infrastructure for Development. Prior to joining the World Bank, Mr. Ingram was Associate Professor of Economics at Harvard University.

Emily Irwin
Emily began her career with the Forest Service in 1986 on the Coconino National Forest in lands and minerals as a co-op student. After several years, Emily accepted a fire management trainee position in the Forest Supervisor’s Office. In 1994, she moved to the Gila National Forest, as a Fuels Specialist. In 1997, she accepted the District Fire Management Officer (FMO) position on the Wilderness Ranger
District (RD). As a District Fire Management Officer (DFMO), Emily was involved in the Wildland Fire Use (WFU) program on the Forest, and began working on National Fire Use Management Teams. In 2002, Emily moved to Albuquerque, New Mexico as the Lead Coordinator at the Fire Use Training Academy. In 2007 she accepted her current position as Regional Fuels and Fire Use Specialist. Emily is currently the Planning Section Chief on the Southwest Fire Use Management Team. She received a B.S. degree in Forestry from Northern Arizona University in 1987.

Seema D. Iyer
Seema D. Iyer, Ph.D., has been Chief of Research & Strategic Planning for Baltimore City’s Planning Department since 2005. The Division is responsible for maintaining and updating the City's comprehensive master plan, producing the City's cooperative forecast in collaboration with the member jurisdictions of the Baltimore Metropolitan Council, preparing for decennial censuses and working with the US Census Bureau to produce annual population estimates, and providing GIS-based information and analysis on planning policies and decisions. Dr. Iyer is currently on the executive board for ULI-Baltimore and is an affiliate of the National Center for Smart Growth Education & Research at the University of Maryland. Prior to joining the Department, she was a Visiting Lecturer in City & Regional Planning at the University of Pennsylvania. She received her Ph.D. in Planning from the University of Michigan in 2003.

Richard Jackson
Richard Joseph Jackson is Professor and Chair of Environmental Health Sciences at the School of Public Health at the University of California, Los Angeles. A pediatrician and public health leader, he has served as a professor at the University of Michigan and at the University of California, Berkeley. He served in many leadership positions with the California Health Department, including the highest, State Health Officer. For nine years he was Director of the Centers for Disease Control and Prevention’s (CDC’s) National Center for Environmental Health in Atlanta. In 2005 he was recognized with the highest civilian award for US Government service, the Presidential Distinguished Executive Award. He has served on many environmental and health boards, as well as the Board of Directors of the American Institute of Architects. In 2008 he received the New Partners for Smart Growth “Lifetime Achievement Award”.

Sandy Jackson
Sandy Jackson is a Public Health Program Coordinator II for the Riverside County, Department of Public Health, Injury Prevention Services, Livable Communities Project. Riverside County Department of Public Health is actively taking a role with regards to environmental and policy advocacy for physical activity, healthy eating, and walkable communities. She is working collaboratively countywide with county and city planners, elected officials, community leaders, school districts, community based organizations and transportation departments to improve the health of Riverside County residents. Sandy has over 15 years of public health experience.

John Jacob
Dr. John Jacob is the director of the Texas Coastal Watershed Program, and holds a joint appointment with the Texas A&M Sea Grant Program and with Texas AgriLife Extension Service through the Department of Recreation, Parks, and Tourism Science.

Jay Jaxon, Jr.
Jay Jaxon, Jr., a graduate of the University of Montevallo, was recently re-elected to his fifth four-year term as mayor of Eufaula, Alabama. During his tenure as mayor, Eufaula became Audubon
International’s first sustainable city, and was also named one of the Top 100 Retirement Communities in the United States.

Annetta Jenkins
Annetta Jenkins is the Principal of Strategos, a management consulting firm based in Riviera Beach, FL. Previously, she was responsible for leading the South Florida presence for LISC for thirteen years that resulted in more than $1 billion in leveraged investment. She is a member of Florida’s Affordable Housing Study Commission and the Florida Housing Coalition.

Jason Jordan
Jason Jordan is a partner in the Washington, D.C. public affairs and government relations consulting firm, Advocacy Associates, LLC. Jordan directs the firm’s transportation, environment and community development practice. Previously, Jordan served as director of government relations and senior lobbyist for the American Planning Association. He has managed policy and government affairs activities for several associations. In addition, he has held a variety of policy and campaign positions, including working for former U.S. Senator Max Cleland. Jordan graduated from Emory University.

Reyna Juarez
Reyna Juarez has been a community organizer since she was 17, beginning with the Sawmill Advisory Council, a well-known infill-housing and community development project in Albuquerque. Reyna organized with the New Mexico Alliance on issues of environmental justice, particularly engaging youth in different areas of the country living near nuclear weapons facilities. Before joining St. Joseph Community Health as a contractor in early 2007, Reyna worked for Re-Visioning New Mexico on the Working Families Agenda, the Voter Participation Project, as well as in facilitating Mother Jones leadership development training and other initiatives.

Matthew Kenney
Matthew Kenney has over 11 years of experience in civil engineering design and land development planning. He has earned rich experiences in sustainable, mixed-use design in recent years. He is a professional engineer, an ASCE member and a certified pervious concrete technician.

Charles Kent
Charles (Chuck) Kent is the Director of the Office of Business and Community Innovation in the Office of Policy, Economics, and Innovation at the U.S. Environmental Protection Agency. This office is responsible for the National Environmental Performance Track Program, the Industry Performance Partnership Program, the Small Business Division, and the Smart Growth program. Chuck also chairs Agency-wide Policy Council on Environmental Management Systems. Over his 25 years with EPA, Mr. Kent has held management or policy analysis positions in several different parts of EPA, including the Policy Office; the Office of Reinvention; the Pesticides Program; Congressional and Intergovernmental Relations; and the Office of the Administrator. Mr. Kent has a Masters Degree in Science, Technology and Public Policy from the School of Public and International Affairs at The George Washington University, and a B.A. in Government from the University of California at Santa Cruz.

Daniel T. Kildee
Daniel T. Kildee has been Genesee County Treasurer since 1997. Before his election as Treasurer, Mr. Kildee served for 12 years as a Genesee County Commissioner, including 5 years as Chairman of the Board of Commissioners. In 2005 he completed a Fannie Mae Foundation Fellowship at the Harvard
University Kennedy School of Government. Dan Kildee is a member of the Executive Committee of the National Vacant Properties Campaign.

**Adam Klinger**
Adam Klinger serves as the Director of the Implementation Division within the U.S. EPA’s Office of Underground Storage Tanks. Adam has been with the Agency for over 18 years and has worked in a wide variety of programs. Adam received his bachelors from Dartmouth College and a masters in public policy from the University of California, Berkeley.

**Kevin Klinkenberg**
Kevin Klinkenberg is an architect, urban designer and Principal of 180 Urban Design & Architecture in Kansas City. The firm specializes in the design of walkable communities for both private and public clients, and has been a long-time promoter of New Urbanism, especially in the Midwest.

**Wolfgang Knabe**
Fire Chief Knabe served three years in the United States Marine Corps before entering the fire service. His fire service career includes 22 years with the Los Angeles Fire Department, three years as the Fire Chief of San Luis Obispo, and for the last 3½ years, he has been the Fire Chief of Fullerton. Wolfgang was a Reserve LAPD Officer for 16 years with the last seven assigned to the SWAT Team and is currently a Reserve Police Officer for the City of La Habra. His education includes a Masters Degree in Public Administration, Bachelors Degree in Management, and he is a graduate of the National Fire Academy’s Executive Fire Officer Program.

**David L. Konkle**
Dave Konkle is now semi-retired after serving as the Energy Coordinator for the City of Ann Arbor where he lead the effort to meet Ann Arbor’s “Green Energy Challenge” to move all municipal operations to 30% green energy by 2010 and the community to 20% green energy by 2015.

**Gene Krebs**
Gene Krebs spent three years on a local school board, eight years in the Ohio House, and has served four years as a county commissioner. While in the Ohio House he chaired the Economic Development and Small Business Committee, and served on the Finance and Appropriation Committee and the Farmland Preservation Task Force. He saw ten of his bills and many amendments passed into law.

**Alissa Kronovet**
Alissa Kronovet, MCP is a Program Director with the California Center for Civic Participation. For the past five years, Alissa has been focusing both her work and research on education, and the authentic engagement of youth in civic processes. She is one of the co-founders of the Young Planners Network, a national network of young people engaged in urban planning in their respective communities.

**Renee Kuhlman**
Renee Kuhlman provides strategic guidance, policy analysis, and advocacy training to preservation advocates. Ms. Kuhlman directs the Helping Johnny Walk to School: Sustaining Communities through Smart Siting Policies project which provides grants, technical assistance, and educational materials to promote state level actions that encourage community-centered schools. Ms. Kuhlman holds degrees from the College of William and Mary and the University of Vermont. Renee Kuhlman provides strategic guidance, policy analysis, and advocacy training to preservation advocates. Ms. Kuhlman directs the Helping Johnny Walk to School: Sustaining Communities through Smart Siting Policies
project which provides grants, technical assistance, and educational materials to promote state level actions that encourage community-centered schools. Ms. Kuhlman holds degrees from the College of William and Mary and the University of Vermont.

Shannon Ladner-Beasley
Shannon Ladner-Beasley, MPH, is a Senior Health Education Specialist working on projects that involve health, land use, and transportation planning, with an emphasis on safe pedestrian and bicycle travel. She partners with city and county staff, community groups and schools to plan policies and highlight best practices for safer, more walkable neighborhoods. She participates in planning and community outreach components of streetscape, redevelopment, and General Plan processes to ensure that potential health impacts are addressed. She also provides leadership on a West Contra Costa Safe Routes to School (SRTS) effort and coordinates the Contra Costa County’s Planning Integration Team for Community Health (PITCH) -- an interdepartmental workgroup comprised of Public Health, Public Works, and Community Development.

Jason Lally
Jason is a Planning Technology Associate at PlaceMatters. As a city and regional planner with a background in the information sciences, Jason believes unexplored synergies exist between the real and virtual environments. Jason builds and implements high-tech and low-tech tools that inform and expand the processes of planning and decision-making.

Sophie Cantell Lambert
Sophie Cantell Lambert directs LEED for Neighborhood Development at USGBC, including the technical development, advocacy, and outreach of the rating system. Prior to joining USGBC, Ms. Lambert led the outreach efforts of ULI Washington as their Director of Community Outreach.

Hannah Laurison
Hannah Burton Laurison is a Senior Associate with Public Health Law & Policy, where she specializes in community economic development. Prior to joining PHLP, she staffed a public-private initiative to develop grocery stores in underserved communities. Ms. Laurison holds a Masters degree in urban planning from Tufts University.

Andrew Lavallee
Andrew Lavallee is a Senior Associate Landscape Architect and Director of Technical Services at EDAW in New York City. Since 1987, he has designed numerous public realm projects throughout the U.S. Mr. Lavallee is also a Park Design for the 21st Century Fellow for the Design Trust for Public Space.

Kathryn Lawler
Kathryn Lawler, MPP, is a consultant specializing in strategic and community planning for the aging demographic. She works with communities across the country developing housing, transportation and healthcare policies to meet the needs of the growing older adult population. Prior to her current work, Ms. Lawler was the Director of Aging Atlanta, a 50-organization partnership piloting innovations in community based supports for older adults. Ms. Lawler received a bachelor’s degree from the University of Notre Dame and a master’s degree from Harvard University.

Debi Lee
Debi Lee is currently the City Manager for the City of Portales where she assumed these duties in December 2003. Prior to this position she was the Assistant City Manager for the City of Hobbs and City Manager for the City of Aztec for 11 years with a tenure of 17 total years. She attended San Juan College, Eastern New Mexico University and was recognized as the first woman ICMA Credentialed City Manager in New Mexico in 2002.

Sonia Lee
Sonia Lee joined Prevention Institute in October 2007 as a program coordinator. She supports the organization’s work in violence prevention and it links to built environment. Prior to joining Prevention Institute, Sonia served for over six years as the Director of Programs of Fonkoze, a grassroots-based, microfinance institution in Haiti. She holds a MPH from Yale University and a BA from Mount Holyoke College.

Christopher B. Leinberger
Chris Leinberger is a land use strategist, developer, teacher, consultant and author. He is currently a Visiting Fellow at The Brookings Institution in Washington, DC, doing research and developing strategies to develop or redevelop "walkable urban" places and develop new strategy, management and financial models for the built environment. He is also a Professor of Practice and Director of the Graduate Real Estate Development Program at the University of Michigan. In addition, he is a founding partner of Arcadia Land Company, a progressive real estate development firm which has active projects in Independence, Missouri and the Philadelphia metropolitan area. Finally, he is the president of Locus, Responsible Real Estate Developers and Investors, which advocates for the upcoming transportation, climate change and energy bills before Congress. Chris has written award-winning articles for publications such as the Atlantic Monthly, Wall Street Journal, Urban Land magazine, among others, and is the author or has contributed chapters to eight books. He has been profiled by national broadcast and print media such as CNN, Today Show, National Public Radio, Progressive Architecture, Urban Land, among others. His most recent books are The Option of Urbanism, Investing in a New American Dream (Island Press, 2008) and Strategy for Real Estate Companies (Urban Land Institute, 2008). Chris is a graduate of Swarthmore College and Harvard Business School. His wife, Lisa, and he live in the Dupont Circle area of Washington, DC.

Bill Lennertz
Bill Lennertz, AIA, co-founder and Executive Director of the National Charrette Institute, is co-author of The Charrette Handbook, with Duany Plater-Zyberk & Company and as a partner in Lennertz Coyle & Associates, Bill has directed over 150 charrettes. Bill received his Masters of Architecture in Urban Design from Harvard University.

Jennifer Leonard
Jennifer Leonard is the National Vacant Properties Campaign Director at Smart Growth America. In this position she coordinates the Campaign’s activities including technical assistance, publication and dissemination of model practices and strategies for reclamation, expanding a nationwide network of practitioners and experts, and communications efforts through e-newsletters and the Campaign web site. Prior to joining the Campaign, Jennifer spent four years as the project manager for a community development corporation in Baltimore, where she became an expert at building private and public partnerships for using the property reclamation tools and revitalizing her East Baltimore neighborhood. She also managed the corporation’s grant and loan efforts, raising several million dollars for the CDC’s programs. With her leadership the Baltimore Commission for Historical and Architectural Preservation designated a new historic district within this neighborhood; after decades of disinvestment, the private
market is starting to return. Jennifer has a Bachelor of Fine Arts degree from the University of Arizona and a Master of City and Regional Planning degree from the University of Pennsylvania.

**André Leroux**
André Leroux is the Executive Director of the Massachusetts Smart Growth Alliance, a coalition that promotes healthy and diverse communities, protects critical environmental resources and working landscapes, advocates for housing and transportation choices, and supports equitable community development and urban reinvestment. For nearly five years, André was the Director of Planning and Policy at Lawrence CommunityWorks, where he led an award-winning community planning and revitalization effort called the Reviviendo Gateway Initiative (RGI) in Lawrence, MA.

**Greg LeRoy**
Greg LeRoy directs Good Jobs First, a national resource center promoting accountability and smart growth in economic development. He pioneered two arguments: economic development incentives contribute to sprawl (and can be reformed to promote smart growth); and sprawl is bad for job quality, unionization and workforce development.

**Michael S. Levine**
Michael S. Levine is Executive Vice President, General Counsel and Corporate Secretary of LISC. Mr. Levine oversees the legal affairs of LISC, including all loans to LISC, government contracts, loans made by LISC, and all other legal work performed by in-house and outside counsel. He also is responsible for the coordination of the agenda and materials for all LISC Board and Committee meetings. Mr. Levine oversees the Legal and Administrative Services departments. He is also a founding member of LISC’s Rural Advisory Committee, and continues to serve on that Committee. Mr. Levine is the President of The Retail Initiative, Inc. (“TRI”), a LISC subsidiary that is the general partner of an investment fund that invested in a number of supermarket-anchored commercial shopping centers in inner-cities throughout the country. Mr. Levine is a member of the New Markets Advisory Committee for Coastal Enterprises, Inc. Mr. Levine graduated magna cum laude from Williams College and Cornell Law School.

**Craig Lewis**
Craig Lewis, AICP, LEED AP, is the National Director of Planning with The Lawrence Group. From their Davidson, NC office, Mr. Lewis has been a leader for more than a decade in promoting Smart Growth and New Urbanism across the country.

**Jennifer Lopez**
Jennifer Lopez serves as the Kern County Community Lead for the Central California Regional Obesity Prevention Program (CCROP), an initiative of the California Endowment. CCROP leverages eight counties in the Central Valley linking health departments and community members to address healthy eating and active living through environmental and policy change.

**Tom Low**
Tom Low is an expert on light imprint urbanism, school design, town planning and traditional neighborhood development. As director of town planning with Duany Plater-Zyberk & Company, he has managed and completed more than 100 New Urbanism projects winning several awards. He also leads the research initiative on Light Imprint New Urbanism, combining environmentally-sensitive storm-water management techniques with New Urban community design principles.
Evan Lowenstein
Evan Lowenstein, of Rochester, New York, created Green Village Consulting in 2005 to assist a variety of organizations in a variety of ways with their quests for sustainable development, smart growth, and environmental protection. Green Village clients have included the Brookings Institution, Institute for Local Self Reliance, and Finger Lakes Radio Productions.

Jeffrey Lubell
Jeffrey Lubell is executive director of the Center for Housing Policy, the research affiliate of the National Housing Conference. From 2000 to 2003, Lubell served as director of the policy development division of the Office of Policy Development and Research at the U.S. Department of Housing and Urban Development.

Lora Lucero
Lora Lucero is a land use planner and attorney with a consulting practice in Albuquerque; Editor of Planning & Environmental Law; and elected to the ABA Council of the Section of State and Local Government. She contributed a chapter in a new book published by Island Press entitled Conservation for a New Generation.

Jana Lynott
Jana Lynott, AICP, joined AARP’s Public Policy Institute in 2007. Her 2008 research investigated the relationship between complete streets and older driver and pedestrian safety. Prior to her employment with AARP she was the Director of Transportation Planning for the Northern Virginia Transportation Commission where she conducted a groundbreaking study on the linkage between land use and the mobility of older adults.

Kathleen McCabe
Kathleen or “Kathy” McCabe, AICP, has been instrumental in development of innovative financing programs in Massachusetts as principal of McCabe Enterprises. She is working on several pilot LEED Neighborhood Development projects. Kathy before specializing in public financing issues, has worked as an urban “Main Street” manager for Roslindale Village Main Street in Boston.

Barbara McCann
Barbara McCann of McCann Consulting helped found and serves as Coordinator of the National Complete Streets Coalition. Prior to that, she was a journalist for CNN. She has co-authored several books and many reports on transportation and land use issues, and is writing a Complete Streets Best Practices Manual with the APA.

Grant McInnes
Grant is a Senior Civil Engineering consultant in Arup’s San Francisco office specializing in utility infrastructure, site development, and water systems. Grant will be contributing his knowledge from recent projects in the US and Europe including Treasure Island.

Deborah McKoy
Deborah McKoy is the Executive Director and Founder of the UC Berkeley Center for Cities and Schools at the Institute of Urban and Regional Development and a lecturer in the Departments of City and Regional Planning and Education. Deborah’s research looks at the intersection of educational reform, community development and public policy.
Gayle McLaughlin
Gayle McLaughlin is Mayor of the City of Richmond, California. Mayor McLaughlin is a life long activist and a staunch proponent of social and environmental justice. She has dedicated her political career to improving the living conditions of all the residents of Richmond.

Mona Mangat
Mona Mangat is a program officer of LISC’s Community Safety Initiative, a national program that links police departments and community development organizations in strategic partnerships to promote community safety. Mona’s responsibilities at LISC include providing technical assistance to sites while expanding the programs training and communications initiatives. Mona holds a bachelor’s degree in Policy Studies from Syracuse University’s Maxwell School of Citizenship and Public Affairs and a Master of Governmental Administration from the University of Pennsylvania’s Fels Institute of Government.

Camille Manning-Broome
Camille Manning-Broome, M.S., is the Principal Planner at the Center for Planning Excellence. Manning-Broome has been involved in statewide recovery planning activities since the 2005 hurricanes, working with the Louisiana Speaks Recovery Planning effort and developing a comprehensive coastal restoration and protection plan for Louisiana while at The Shaw Group.

Heather Mann
Heather Mann is National Program Director of the Center for Resilient Cities, a nonprofit offering applied resilience planning and implementation services. Since 1996, the Center protected or restored 300-plus urban acres and planned green infrastructure networks in more than 1500 urban acres. Mann lives aboard her sailboat in the Bahamas.

Lori Marinovich
Lori Marinovich is the Executive Director of the City of Lake Charles Downtown Development Authority (DDA) and has led the city in coordination efforts for the Strategic Plan of the DDA since 2001 and the current Lakefront Downtown Action Plan (LDAP). She has led development projects for the DDA including the Recovery Response with initiatives, Louisiana Speaks.

Dan Marks
Dan Marks is Director of Planning and Development for the City of Berkeley, California where he manages, among other divisions, the Office of Energy and Sustainable Development. He has 20 years of experience as a local government planner, including Planning Director of the City of Fremont, California. He has also worked as a consultant for cities throughout California and been a program manager for non-profit planning organizations including San Francisco Planning and Urban Research Association and the Greenbelt Alliance. He has a Master of City Planning degree from University of California, Berkeley.

Shawn E. Marshall
Shawn Marshall was elected to the Mill Valley City Council in 2005 and recently served as the city’s Mayor. Shawn is the current president of the League of California Cities North Bay Division, which represents the legislative interests of 31 bay area cities in Sacramento. She is Mill Valley’s representative to the Association of Bay Area Governments and the Legislative Committee of Marin County Council of Mayors and Councilmembers. Shawn served on the governance and education
committees of the Marin Clean Energy CCA task force and will soon begin service on the Executive Committee of the newly formed Marin Energy Authority.

**Martha Matsuoka**
Martha Matsuoka is Assistant Professor in the Urban and Environmental Policy Department at Occidental College. Her research interests include environmental justice, community development, organizing and coalition building, with a current focus on ports and goods movement in California.

**Erika L. Mazza**
Erika Mazza currently serves as the Housing Planning Manager for the City of Flagstaff. In this role she established and administers the voluntary incentive policy for developers to incorporate attainable housing into their developments and recently completed a comprehensive study that formulated a nexus between attainable housing and community sustainability.

**Chris Mehl**
Chris has extensive experience working in communications and on public policy issues across the West. He previously worked for many years as a Press Secretary in Congress. In his free time, Chris also serves on the Bozeman, MT Planning Board.

**Korin Merle**
Korin Merle is the youth representative on the steering committee Oakland’s HOPE Collaborative (Health for Oakland’s People and Environment) which is participating in the W.K. Kellogg Foundation’s national Food and Fitness Initiative. Food and Fitness envisions neighborhoods that provide equitable access to affordable, healthy, locally grown food; safe and inviting places for physical activity and play; sustainable, successful local economies—all to the benefit of the families and youth living in those neighborhoods.

**Dee Merriam**
Dee Merriam is a Community Planner at the Centers for Disease Control working on the relationships between community design and public health. She earned her Master’s in Landscape Architecture from the University of Georgia.

**Leslie Mikkelsen**
Leslie Mikkelsen M.P.H., is Managing Director of Prevention Institute, a non-profit national center dedicated to improving community health and well-being. She is co-founder of the Strategic Alliance for Healthy Food and Activity Environments, and serves as a policy advisor to the Health Eating Active Living Convergence Partnership of funders.

**Dave Mitchell**
Dave Mitchell is a Senior Project Manager for the environmental consulting firm, Michael Brandman Associates. He has more than 17 years of experience working for public agencies and in private consulting. His expertise includes land use and air quality planning, air quality impact assessment, and environmental document preparation. Dave received his Master’s degree in Geography from California State University, Fresno.

**Robert P. Mitchell**
Robert Mitchell, FAICP, is the Special Assistant for Planning Initiatives for the Commonwealth of Massachusetts. He has 30 years experience in state and municipal planning. He is also an Adjunct Professor in the Department of Landscape Architecture & Regional Planning at the University of Massachusetts.

**Representative Harold Mitchell, Jr.**
Harold Mitchell represents the 31st District in Spartanburg County in the South Carolina Legislature. He is also the Executive Director of ReGenesis, a community-based non-profit organization that was formed in 1998 to address environmental health issues focused on environmental justice. The work of ReGenesis is focused on the redevelopment and revitalization of the Arkwright-Forest Park communities within Spartanburg, South Carolina. Harold is a member of the U.S. National Environmental Justice Advisory Council; BMW Community Advisory Council; South Carolina’s State Competitive Initiative Task Force on Distressed Communities; Spartanburg Chamber of Commerce; and Chairman of the Spartanburg Housing Development.

**Susan Mockenhaupt**
Susan Mockenhaupt has over 30 years experience working in natural resources for the US Forest Service in California and the National Office in DC. Work assignments include Strategic Planning and Resource Assessments, Conservation Education, National Fire Plan, Cooperative Forestry and Urban and Community Forestry.

**James A. Moore**
James A. Moore is a Senior Vice President and the National Director of Community Planning & Urban Design with HDR, an international, full-service architecture, engineering, planning and consulting company. His work focuses on urban redevelopment, mixed-use pedestrian-oriented neighborhood design, and planning for sustainable urbanism.

**Patrick Moore**
Patrick Moore, co-owner of Moore Planning Group, LLC, since 1982 has led the firm from the facilitation of Community Master Planning to design of Regional Parks throughout the Southeast. In 2007 MPG began working with the City of Lake Charles in creating the Lakefront Downtown Action Plan (LDAP). LDAP is a strategy tool for implementation of important projects and programs and the leveraging of various funding sources.

**Terry Moore**
Terry Moore, FAICP, has been a vice president and project manager at ECONorthwest, an economics and planning consulting firm, since 1979. He has managed over 400 projects in transportation and land-use planning, economic development, growth management, policy analysis, and market and feasibility analysis for private and public clients.

**Ryan Morrell**
Ryan Morrell is the President and owner of CivaTerra and a member of the American Institute of Certified Planners. Ryan specializes in integrating GIS technology into the planning process and is capable of translating complex planning issues into coherent plans and policies for decision makers and the public.

**James C. Muldavin**

James C. Muldavin is Executive Director of the California Center for Civic Participation, a non-partisan organization supporting youth engaged in all dimensions of sophisticated policy-making processes focused on land use, education, health, criminal justice and community design. Over 100 associations, corporations and foundations support this local, state and national work.

**Josh Meyer**
Josh Meyer is Land Use and Resource Conservation Programs Manager at LGC. He joined LGC in 1997, following service as a Yolo County Watershed Education Coordinator with AmeriCorps. Since 2003 he has directed numerous public planning projects in Central Valley communities and co-authored the resulting products, including the California APA Chapter award-winning West Fresno Vision Plan. He also directed a multi-day community design workshop and development of a model form-based code for the City of Fresno Planning Department in 2005.

**Jay Narayana**
Jay Narayana is part of the award-winning Gateway Planning team and provides planning, urban design and code writing support to the town planning work undertaken by the firm. Ms. Narayana has worked as a planner in the States of Texas, Kentucky, and North Carolina. Ms. Narayana has degrees in Architecture, planning, and business administration.

**Todd Nedwick**
Todd Nedwick is Assistant Director of Public Policy at the National Housing Trust. His efforts are focused on research and analysis of federally assisted multifamily housing data and affordable housing preservation policies. He holds an M.P.P from the University of Maryland, School of Public Policy.

**Arthur C. (Christian “Chris”) Nelson**
Arthur Nelson is Presidential Professor and Director of Metropolitan Research at the University of Utah. Chris is an international authority on growth management, urban containment, smart growth, public facility finance, metropolitan development patterns, and analysis of metropolitan development trends. Chris served HUD during the Clinton Administration as a special advisor on smart growth for the Office of Policy Development and Research, and he continues to advise HUD, EPA, US DOT and members of Congress on smart growth.

**Kevin Nelson**
Kevin Nelson, AICP is a Senior Policy Analyst with the EPA Smart Growth Program. Kevin is the project leader for an EPA-led process to develop a model smart growth code. Drawing upon his experience identifying barriers to smart growth implementation, he works to update and revise local regulations to encourage a range of smart growth objectives.

**Gretchen Nicholls**
Gretchen Nicholls is the Program Officer of the Twin Cities Local Initiatives Support Corporation (LISC) and coordinates the Corridor Housing Initiative (CHI). The Corridor Housing Initiative supports proactive planning and production of affordable housing throughout the Twin Cities. In 2007 the Corridor Housing Initiative received the National Planning Excellence Award for a Grassroots Initiative by the American Planning Association.

**Karen Nikolai**
Karen Nikolai integrates health policy and the built environment Hennepin County MN. Her work includes the county’s active living partnership and the Sustainable Sites Initiative with Lady Bird
Johnson Wildflower Center and other partners. She has Masters' degrees in Public Health and City Planning from the University of California, Berkeley.

**Lisa Nisenson**
Lisa Nisenson has over 15 years experience as a smart growth practitioner. She is Principal of Nisenson Consulting in Sarasota, Florida, with a practice focused on aligning environmental rules with State and local land development regulations, policies and guidance manuals.

**John Norquist**
John Norquist was the Mayor of Milwaukee from 1988-2004. Under his leadership, Milwaukee experienced a decline in poverty, saw a boom in new downtown housing, and became a leading center of education and welfare reform. Named a Governing magazine Public Official of the Year during his tenure as Mayor, he also had widespread recognition for championing the removal of a .8 mile stretch of elevated freeway, clearing the way for an anticipated $250 million in infill development in the heart of Milwaukee. At CNU he has joined local activists in numerous cities as a key champion of plans to replace freeways with boulevards. Norquist earned his undergraduate and master's degrees from the University of Wisconsin. He represented Milwaukee's south and west sides in the Wisconsin Legislature.

**Nathan R. Norris**
Nathan R. Norris helps developers and municipalities as the Director of Implementation Advisory for PlaceMakers, L.L.C. Nathan also serves as the Director of Marketing & Design for the Waters, a 1,200 acre Traditional Neighborhood Development outside Montgomery, Alabama. Nathan is a licensed attorney and real estate broker.

**Andrew Nothstine**
Andrew Nothstine is a planner for Glatting Jackson Kercher Anglin in Orlando, Florida, where he works with a wide range of public and private clients. Andrew has worked on large-scale new developments, sector-area planning, and corridor revitalization plans, among other projects. He has been involved with the Pennsylvania Department of Transportation’s “Smart Transportation” effort since early 2008. Andrew is also the firm’s affordable housing expert, and is currently exploring the interrelationship between affordable housing and transportation, with a particular focus on how transit-rich, walkable communities are an integral part of affordable housing strategies. Prior to joining Glatting Jackson in 2005, Andrew was a Presidential Management Fellow with the U.S. Federal Transit Administration in Washington, D.C. He has also worked as an Associate Director of the National Young Leaders Conference and on Capitol Hill. Andrew has a Masters in City Planning from the University of Pennsylvania.

**Robert S. Ogilvie**
Robert Ogilvie, Ph.D., directs Planning for Healthy Places at Public Health Law & Policy. Over the past 15 years he has worked extensively in community development and planning to help improve low- and middle-income neighborhoods. Prior to joining PHLP, he served as a faculty member in the Department of City and Regional Planning at the University of California at Berkeley, and as Director of Volunteers at the Partnership for the Homeless in New York City. He has also worked as a consultant to city and county governments, nonprofit organizations, and neighborhood activists. Robert holds a PhD in political science from Columbia University.

**Eva Ordonez Olivas**
Eva Olivas has served Arizona communities in the behavioral health, cultural arts and community development fields for over 25 years. She is a native Phoenician, raised in the heart of downtown, who is committed to grassroots approaches for agency programs. She attended Phoenix College and Arizona State University.

Michael O’Neal
Michael completed his undergraduate in sociology and philosophy at the University of Missouri--St. Louis, Missouri. He initially worked in non-profit organization serving people with development disabilities. He managed several programs that provided life skills, work/occupation training as well as independent living—housing for people with development disabilities prior to his graduate studies at the University of Minnesota. Michael moved to the Washington, DC area and began working for AARP in Livable Communities in January, 2005. He works directly with AARP state offices and local volunteers/members to develop local plans for Livable Communities initiatives. He also promoted several key national and local partnerships with Rebuilding Together, American Planning Association, etc. to ensure 50+ populations can have viable housing alternatives and to foster the further development of AARP’s Social Impact Agenda. Prior to his work at AARP, Michael lived and worked in Minneapolis, MN. Michael worked with neighborhood organizations and non-profit organizations on community development issues while teaching sociology and urban studies.

Janet, Page-Reeves
Janet Page-Reeves, Ph.D., has many years of experience working on and writing about poverty and socio-economic development, both in the US and in Latin America. She was a Fulbright Hayes Research Fellow in Bolivia, and received her Ph.D. in cultural anthropology from the City University of New York in 1999 for research she conducted regarding indigenous identity, women’s cooperatives, the politics of development funding, and the global market for hand knits. In New Mexico, she has worked with a wide variety of nonprofit organizations on issues of food security and hunger, youth action, living wages, Food Stamps, healthy communities and local food production. Currently, she is the strategic planner and coordinator for an obesity prevention initiative in the South East Heights of Albuquerque with St. Joseph Community Health, and serves as a principle member of the ACHIEVE committee.

Anne Palmer
Anne Palmer is a program director for Johns Hopkins Center for a Livable Future. She directs the food and nutrition programs of the Center that include building awareness about the current food system, working with community groups conduct community food assessments, and creating programs to build food security in Baltimore city.

Daniel Parker
Daniel Parker is the Assistant Division Director for the Division of Environmental Health in the Florida Department of Health. He has a Masters in Urban and Regional Planning and works to support a public health role in smart growth, community assessments and sustainable solutions. He was a 2007 State of Florida Appointee to the Healthy Communities Workgroup of the National Governor’s Association and is a Planning Commissioner for the Tallahassee-Leon County Planning Commission.

John Parker
John Parker is Vice President of Decision Economics at HDR Engineering, Inc. He is an economist with over 25 years of experience in the energy, risk management, and financial services sectors. Mr. Parker is based in Toronto office and is responsible for HDR Decision Economics’ Canadian operations. Mr. Parker holds a Masters in Philosophy from the University of Oxford.
Daniel Parolek
Daniel Parolek is the co-author of the first comprehensive book on Form-Based Codes, titled “Form-Based Codes: A Guide for Planners, Urban Designers, Municipalities, and Developers,” published by John Wiley & Sons in 2008. He is a practicing architect and town planner whose passion is creating and revitalizing sustainable urban places. Daniel is a founding board member of the Form-Based Code Institute and founding principal of Opticos Design, Inc. based in Berkeley, California.

Mookesh Patel
Professor Mookesh Patel received his MFA in graphic design from Rhode Island School of Design. He holds a diploma in Visual Communication Design from the National Institute of Design, and a BS from Ahmedabad Science College, Gujarat University, India. He chairs the Department of Visual Communication Design at Arizona State University.

Stefan Pellegrini
Stefan Pellegrini, AICP, LEED AP, is a principal with Opticos Design, Inc. During his career he has contributed to a wide variety of urban design, planning, and architecture projects, including the design of new towns, master planning and revitalization endeavors for existing communities, and the design of residential and civic buildings. He possesses a masterful knowledge of both building types and vernacular architectural styles, and has played a significant role in the development of contemporary design guidelines and Form-Based Codes.

Emily Piltch
Emily Piltch recently completed the Centers for Disease Control and Prevention, Public Health Prevention Service that placed her at the Tacoma-Pierce County Health Department in its Physical Activity and Nutrition team. Her work focused on environmental and policy changes promoting active life styles and access to healthy food. Emily holds a Masters in Public Health from the University of North Carolina at Chapel Hill.

Prakash Stephen Pinto
Prakash Stephen Pinto, AIA, LEED AP, is an urban designer and architect who provides sustainable design and planning for a diverse range of projects at Perkins + will—including large scale land use plans, including the Treasure Island Redevelopment Plan and Downtown Hollywood Urban Design Plan, streetscape plans, and design guidelines encompassing issues of public access, urban design and open space. He brings broad experience in working with communities, diverse client groups, and consultants in a collaborative context, and a strong commitment to sustainable planning practices. Mr. Pinto is currently an active member of the US Green Building Council, the American Institute of Architects, and the American Planning Association. He has a Masters degree in Architecture and Urban Design from Harvard University and serves as a visiting design lecturer for urban design studios at the University of California Berkeley.

Maury Plambeck
Maury Plambeck has served as the Director of the Department of Metropolitan Development in Indianapolis since 2001. Prior to that he was a Planner for the City of Cheyenne and Laramie County. He holds a Bachelor of Science in Architecture from the University of Nebraska, and a Master of Community and Regional Planning from the University of Nebraska.
Ilana Preuss
Ilana Preuss is the Outreach and Field Director for the Transportation for America Campaign, a broad, diverse and unprecedented coalition advocating for a national vision for a 21st century transportation system. In this role, Ilana leads the outreach and field organizing for the nationally comprehensive political campaign. She is responsible for recruiting a wide diversity of partners for the campaign to reform national transportation policy, and build constituency support to follow through with the campaign’s legislative strategy. The campaign seeks to build strong advocacy partnerships across the country from urban to rural, from big business to small shop, for every family and individual to ensure that transportation investments build our economy for the future.

Cynthia Price
Cynthia Price, an editor/reporter/photographer for two weekly newspapers, is chair and co-founder of the Greater Grand Rapids Food Systems Council, which operates on many levels, including policy and projects. She also co-chairs the national Urban Agriculture Committee of the Community Food Security Coalition.

Sharon E. Pugh
Sharon Pugh is a Senior Policy Analyst in the Office of Budget and Policy at the Federal Transit Administration (FTA), where she serves as the agency lead in developing transportation and land use policies. In this capacity, Ms. Pugh is responsible for developing and directing initiatives, including reauthorization proposals, to elevate transit-oriented and joint development as a major focus in FTA programs. She also serves as the co-chair of the FTA/Department of Housing and Urban Development (HUD) Interagency Working Group to promote affordable housing near transit. Ms. Pugh earned her Master of Business Administration and Bachelor of Science degrees from The George Washington University, Washington, DC.

Carrie Raber
Carrie Raber is the Urban Conservationist for the Stearns County Soil & Water Conservation District in Central Minnesota. She helps communities address natural resource concerns and assists with the implementation of their Wellhead Protection Plans. Carrie obtained a B.S. in Environmental Geology and Technologies from the University of North Dakota.

Matt Raimi
Matt Raimi, AICP, is the Principal of Raimi + Associates in Berkeley, California. His work focuses on: comprehensive planning, sustainability and public health and planning. He co-wrote How to Create and Implement Healthy General Plans and is involved in creating healthy General Plans for Riverside County and the City of South Gate, California.

John K. Ramsey
John Ramsey is the executive director of the Council of Educational Facility Planners International (CEFPI). The Council represents nearly 3,500 individuals from both the private and public sector of K-12 education -- all focused on planning, designing and building “great schools”. A leader in the association and non-profit community, John Ramsey has over 16 years experience in the association management field. He has served in nearly every position and capacity in the association industry from government relations, marketing/communications, membership, conference and exposition planning, and as an executive director. As an executive director with international experience, John Ramsey directed external affairs and business development for the National Center for State Courts, a multi-
conglomerate not-for-profit association, which specializes in association services to over 16 court-related associations and 12 international judicial-related projects.

**Tracey Rattray**
Tracey Rattray, MPH, MSW is the Director of the Community Wellness & Prevention Program (CW&PP) at Contra Costa Health Services, working to reduce risk factors that contribute to chronic diseases and injuries. In recent years she has begun to examine the impact of the built environment on nutrition, physical activity, injury and asthma. She is currently representing the Health Department in a collaborative effort to develop a Health Element for the City of Richmond's General Plan.

**Harry Relkin**
Harry Relkin is the Senior Vice President for Land Development and Political Affairs for Forest City Covington, NM, LLC, the master developer of Mesa del Sol, a 12,900 acre mixed use development on Albuquerque’s South Mesa. Harry Relkin is an Albuquerque native. He obtained his bachelor’s degree from the University of New Mexico in 1969 from the College of Education, while majoring in Political Science. He received his Juris Doctor’s degree from UNM in 1974. Relkin has practiced law since 1974, primarily in the areas of real estate, business, and public law. Additionally, he served as an Assistant Land Commissioner for the State of New Mexico during his tenure at the New Mexico State Land Office from 1991 until 2003.

**John L. Renne**
Dr. John L. Renne, AICP is the Managing Director of The TOD Group, LLC which specializes in transit-oriented development (TOD). The TOD Group is the manager of the Denver Transit Oriented Development Fund, LLC which is at the initial stages of redeveloping a 21-acre TOD located in an inner-suburb of Denver. Dr. Renne is also an Assistant Professor of Urban Planning and Transportation Studies at the University of New Orleans and the Associate Director of the University of New Orleans Transportation Center. He is a co-editor and author of 'Transit-Oriented Development: Making It Happen' (forthcoming 2009, Ashgate) which is the first international book on TOD with contributions from top scholars across North America, Europe, Asia and Australia. Dr. Renne has lead two national studies on TOD for the Transportation Research Board of the National Academies. He has worked on TOD policy across the United States and Australia for the past eight years. In 2005, Dr. Renne organized Australia's first international conference on TOD. During the past year, Dr. Renne published "Smart Growth and TOD at the State Level: Lessons from California, New Jersey and Western Australia" in the Journal of Public Transportation and "From Transit-Adjacent to TOD" in Local Environment.

**Carmen Rhodes**
Carmen Rhodes is the Executive Director of FRESC: Good Jobs, Strong Communities in Denver, Colorado. She is the convener of the Colorado Apollo Alliance, a coalition of labor and environmental organizations working to ensure an economy that is environmentally and economically sustainable.

**Shane Rhodes**
Shane Rhodes is the Program Manager for SRTS in Eugene, Oregon. He works for the 4J School District, which spans 155 square miles and serves about 17,000 students in 26 elementary, 13 middle, and 8 high school programs. He has worked in the bicycle industry since 1995 and has taught Bicycle Education programs and advocated for cyclist and pedestrian issues in Sevilla, Spain, the Bay Area in California, and Eugene, Oregon.

**Oliver Richard**
Oliver ‘Rick’ Richard chairs the seven-member Lake Charles Downtown Development Authority (DDA). He leads the board’s efforts in strategically integrating new development with the revitalized business district. Utilizing years of private development and corporate leadership, Mr. Richard is leading DDA in defining a new process and “way of thinking” about potentials for Lake Charles.

**Lynn Richards**
Lynn Richards is currently the acting Division Director of EPA’s smart growth program. She focuses on all aspects of smart growth, including the nexus between water quality and land use, public participation, green infrastructure, and transportation issues. In 2006, she published “Protecting Water Resources with Higher Density Development,” and in 2004, “Protecting Water Resources with Smart Growth.” In addition, she was one of the primary authors of “Getting to Smart Growth: 100 Policies for Implementation” that was published by the Smart Growth Network in 2002.

**David Risinger**
David Risinger has thirty years of experience in the fields of planning, landscape architecture, and economics. He holds a Bachelor Degree in Economics and a Masters Degree in Landscape Architecture from Louisiana State University. In 1986 he founded Urban Resource Group, which now has twelve offices stretching from Rancho Cordova to Boston. David divides his time between not profit initiatives in Florida and New Orleans, where he is creating a redevelopment model focused on attracting private sector investment.

**Christy Riviere**
Christy Riviere is a senior planner in the San Francisco Bay Area where she specializes on regional land use policies, especially as they relate to housing affordability, carbon emissions and land consumption. She has recently been published in *Western City* and APA’s *Planning*. She holds degrees in Business Administration and Urban Studies.

**Cole Roberts**
Cole Roberts leads the Energy & Resource Sustainability offering of Arup’s San Francisco office. He will be moderating the questions and contributing to the discussion in the area of energy and water systems.

**Breece Robertson**
Since 2001, Breece Robertson has directed enterprise GIS applications for TPL. For more than 50 projects, she has managed a team of GIS staff and planning consultants to design sophisticated models, collect and analyze spatial data, and develop demographic and analysis maps. She has overseen modeling efforts that balance a wide range of land protection issues including stormwater management, clean drinking water, wildlife protection, and farmland conservation. She received the Special Achievement in GIS Award from ESRI, the leading GIS software provider in the U.S., in 2006. She holds a Master’s degree in geography and planning from Appalachian State University and a Bachelor’s degree in exercise physiology from Lenoir-Rhyne College.

**Sue Robertson**
Sue Robertson has a B.S. in elementary education, a M.S. in Interior Design, has taught at the K-12 and university levels, and has experience in space planning for educational facilities and commercial design. She has assisted numerous districts in developing educational specifications and master plans. Sue is co-author of *Creating Connections - The CEFPI Guide for Educational Facility Planning* and currently serves as President of CEFPI.
Art Rodgers
Art Rodgers is the Senior Housing Planner for the DC Office of Planning. He has over 12 years of experience in urban planning, housing finance, and community development. Prior to joining the Office of Planning, he has worked as a planning consultant, an Investment Officer for the AFL-CIO Housing Investment Trust and at a Neighborhood Housing Services in Buffalo, NY. He did his graduate work at Cornell University’s Department of City & Regional Planning, and received a BA in Environment Design from the State University of New York at Buffalo.

Gary Rogers
Gary Rogers is President of the Florida Redevelopment Association and serves on the Board of Directors at the Broward Land Trust and Smart Growth Partnership. He is also a member of the APA, CNU, and ULI. Prior he served as the Director of the Department of Neighborhood Revitalization at the Buffalo, New York Urban Renewal Agency from 1980 to 1994, was the Director of the Department of Community Development for the City of Cocoa, Florida in 1995, and was the Director of the Community Redevelopment Agency at the City of Lauderdale Lakes, Florida in 2002. He received his Bachelor of Arts in Urban Planning from the State University of New York at Buffalo.

David Rouse
David Rouse, ASLA, AICP, PP, LEED AP, is a planner and landscape architect with the nationally known consulting firm Wallace Roberts & Todd. In 20 years with WRT he has led numerous community planning projects for a diverse range of counties, cities, and towns. Mr. Rouse has a special interest in sustainable planning and design.

Nikki Rovner
Nikki Rovner was appointed Deputy Secretary of Natural Resources by Governor Tim Kaine in January 2006. Prior to coming to work for the Kaine administration, Nikki was Director of Government Relations for The Nature Conservancy of Virginia, where she advanced the group’s mission of biodiversity conservation by fostering partnerships with agencies and organizations and managing a legislative advocacy program. Before that, Nikki spent six years as a staff attorney with the Virginia Division of Legislative Services, where she served as counsel to five natural resources committees of the Virginia legislature. Nikki holds a B. S. in wildlife science from Penn State University and a law degree from the University of Richmond.

Kate Rube
Kate Rube is the Policy Director for Smart Growth America. She leads and coordinates SGA’s policy advocacy, working on both federal campaigns and with more than 40 state and regional groups on local, state, and regional smart growth issues. Kate is also an Outreach Coordinator with the Transportation for America campaign, a new coalition of diverse groups pushing for significant reforms in our national transportation policy to strengthen our communities, our economy, and the transportation choices available to Americans. Kate previously worked as the Assistant National Field Director for U.S. PIRG, the federation of state Public Interest Research Groups, helping to coordinate grassroots campaigns on a range of federal environmental issues.

Victor Rubin
Victor Rubin is Vice President for Research at PolicyLink, a nonprofit organization dedicated to advancing policies for social and economic equity. He has 25 years experience as a community...
planner, consultant, university researcher, and teacher. His masters and doctorate are in city and regional planning from the University of California, Berkeley.

**David Rusk**
David Rusk is former Mayor of Albuquerque, and is now an urban policy consultant, based in Washington, DC. He is the author of "Inside Game/Outside Game" and "Cities without Suburbs", and a foremost expert on inclusionary zoning policies. He has consulted for over 100 communities in the U.S., and lectured on urban problems in Canada, England, South Africa, Germany, and the Netherlands.

**Julia Ryan**
Julie Ryan is the Program Director of LISC (Local Initiatives Support Corporation)’s Community Safety Initiative, a national program that links police departments and community development organizations in strategic partnerships to promote community safety. For the past five years, Julia has helped grow CSI’s portfolio of sites across the country and has fostered national partnerships for LISC in the criminal justice industry. Prior to joining LISC, Julia served on the program development and fundraising team of a New York-based immigrant service agency and coordinated small business development programs in Massachusetts. Julia holds a Masters Degree from Columbia University’s School of International and Public Affairs.

**Suzanne Rynne**
Suzanne Rynne, AICP, is the Manager of the Green Communities Research Center at the American Planning Association. She is currently managing a research project on incorporating energy and climate change issues into planning, as well as a complete streets research project. She is also co-editor of the publication *PAS Memo*.

**Marvin Salazar**
Marvin Salazar is a freshman at UC Berkeley. He is part of several programs, including the International Climate Champions and the Young Planners Network, which have allowed him to travel to conferences in London, Japan, New York, San Francisco and San Diego. There, he has interacted with youth from all over the world, and has been a youth voice to world leaders on the issue of climate change. Marvin is currently working on different projects to reduce the amount of greenhouse gases in the air, influence environmental legislation and increase awareness of environmental injustice.

**Gregory Saville**
Gregory Saville is senior partner in the international consulting firm, AlterNation. He is an adjunct professor, an urban planner and a former police officer. After 20 years specializing in crime prevention through environmental design, he recently created a new, more effective program for urban safety and neighborhood governance – SafeGrowth.

**Michelle Saville**
Michelle is a director with the international consulting firm AlterNation that specializes in community development. She is creator of the Active Gallery Art program to help communities use culture and art as a revitalization strategy. She is also an accomplished artist having displayed her work in galleries across North America.

**Joseph Schilling**
As a founding member of the National Vacant Properties Campaign Professor Schilling works closely with state and local officials and community practitioners to reclaim vacant properties and facilitate city planning.
revitalization. For the past year he has led the Campaign’s policy work on the neighborhood stabilization of vacant and foreclosed homes making presentations before the Federal Reserve Bank, State of Virginia, and the National Governors Association. Schilling has an upcoming special report for the Brookings Institution on innovative state vacant property policies and a series of vacant property case studies that document the lessons learned from the Campaign’s technical assistance work with more than 20 cities. Professor Schilling earned a Masters of Environmental Law from George Washington and a J.D. from Hastings College of the Law in San Francisco.

Roger Schluntz
Dean of Architecture & Planning at UNM, Prof. Schluntz previously served as dean at U. Miami, and prior as director of the School of Architecture at ASU, where he also established the Joint Urban Design Program. A member of the National Register of Peer Professionals for the US-GSA, he was elevated to the College of Fellows of the AIA in 1996.

Jim Schwab
Mr. Schwab, AICP, joined the American Planning Association in November 1985. Originally the assistant editor of Planning, APA's monthly magazine, he joined APA’s research department in August 1990. He serves as the co-editor of a monthly publication, Zoning Practice.

Mr. Schwab served as the primary author and principal investigator for Planning for Post-Disaster Recovery and Redevelopment (PAS Report No. 483/484, December 1998), which APA produced under a cooperative agreement with the Federal Emergency Management Agency. Mr. Schwab has been the sole author of two other PAS Reports, Industrial Performance Standards for a New Century (No. 444, March 1993) and Planning and Zoning for Concentrated Animal Feeding Operations (No. 482, December 1998). He served as the project manager for a FEMA-supported project in which APA has developed training for planners on the planning provisions of the Disaster Mitigation Act of 2000, and for the Firewise Communities Post-Workshop Assessment, a contract with the National Fire Protection Association to determine the impact of its Firewise workshops on community behavior. He managed a project funded by the National Fire Protection Association that has resulted in a new PAS Report, Planning for Wildfires.

Pamela Schwartz
Pamela Schwartz has a broad background in public health, managing community-based initiatives and working with at-risk populations. As Director of Program Evaluation, Pamela is a driving force behind Kaiser Permanente’s Community Health Initiative. This effort includes Kaiser Permanente’s comprehensive approach to preventing obesity and obesity-related diseases. Pamela is responsible for evaluating the impact of the initiative at 27 sites across Kaiser Permanente’s geographic regions. Pamela holds a master's in Public Health from San Jose State University.

Stewart Schwartz
Executive Director, Coalition for Smarter Growth. A co-founder of the leading regional smart growth organization in the Washington, DC area, Stewart is an attorney with experience in land use, transportation and the environment. Mr. Schwartz has worked for the President’s Council on Sustainable Development, the Land Trust Alliance, the Southern Environmental Law Center, and volunteered for the Chesapeake Bay Foundation.

Sue Schwartz
Sue Schwartz, FAICP, is the Neighborhood Planning Manager for Greensboro, North Carolina where she has won numerous awards for her redevelopment efforts. This includes Southside, an infill TND, which won the US EPA 2004 Smart Growth Award for Built Projects. In 2003 Sue was inducted into the AICP College of Fellows.

**Shannon Scutari**
Shannon Scutari advises the Governor on issues related to transportation as well as growth and infrastructure. She also oversees the Governor’s Growth Cabinet, a multi-agency working group of fifteen Cabinet agency directors whose missions involve growth and infrastructure planning and development. Prior to joining the Governor’s Office, Ms. Scutari served as an Assistant Director for the Arizona Department of Transportation and led the Communication and Community Partnerships team in providing media, community and government relations, public involvement and partnering services throughout the state. Ms. Scutari also served as the Government Relations Director for the City of Tempe and a private sector lobbyist for municipal, transportation, telecommunication, housing and healthcare issues. She earned her joint J.D./MBA and Bachelor's Degree from Arizona State University and is a member of the State Bar of Arizona.

**Julia Seward**
Julia Seward is Director of State Policy for Local Initiatives Support Corporation (LISC) where she is responsible for development and implementation of state community development policy and coordination of LISC’s smart growth work. Her diverse career in the public, private, and nonprofit sectors includes management of the corporate community reinvestment and philanthropic programs for Signet Banking Corporation, work as a Special Policy Assistant in the Virginia Governor’s Office, community development consultant to financial institutions and community nonprofits, and chairmanship of The Consumer Advisory Council for the Board of Governors of the Federal Reserve System. She is also the mother of a daughter.

**Claudia Siegman**
Claudia Siegman became Director of the Low Income Investment Fund’s NY Child Care Seed Fund in 2006 after six years with LIIF’s flagship California facilities programs. Her work focuses on creating public-private partnerships to systemically plan, finance and develop a sustainable early childhood education infrastructure.

**Skip Smart**
Skip Smart is Director of Community Development in the Office of Community Outreach Services with Louisiana (Department) Economic Development (LED). He is a certified Professional Community and Economic Developer (PCED). He serves as member of the Board of Directors of the Community Development Council, and the Advisory Board for the Strategic Growth Institute, a not-for-profit community and economic development entity affiliated with the University of Central Arkansas in Conway, Arkansas.

**Conan Smith**
Conan Smith is the Executive Director of the Michigan Suburbs Alliance. He represents the City of Ann Arbor on the Washtenaw County Commission and the Southeast Michigan Council of Governments. He has served as a regional parks commissioner and currently is on the board of directors for Smart Growth America.

**Kathleen W. Smith**
Kathleen Smith, AICP, is the Senior Mitigation Planner for the Federal Emergency Management Agency (FEMA) to assist States, Tribes and communities reduce their risks from hazards. She has been a member of the American Institute of Certified Planners (AICP) since 1999.

**Nathaniel Smith**
Nathaniel Smith serves as Director of Partnerships and Research for Equitable Development at Emory University’s Office of University-Community Partnerships (OUCP). In this capacity Nathaniel facilitates Emory partnerships and research opportunities with external and community organizations to achieve balanced, sustainable and inclusive development throughout the metropolitan Atlanta region.

**Ken Snyder**
Ken is a nationally recognized expert on a range of technical and non-technical tools for community design and decision-making. Ken is the CEO/President of PlaceMatters and the Chair of the APA’s Technology Division. Prior to PlaceMatters, Ken directed the Orton Family Foundation’s Planning Tools Program.

**Lee Sobel**
Lee Sobel is the Real Estate Development and Finance Analyst in the US EPA’s Development, Community & Environment Division (the Smart Growth program). Mr. Sobel’s work focuses technical assistance, outreach and education, and research and policy, related to real estate development that achieves smart growth goals and outcomes. He has a law degree from Thomas M. Cooley Law School, and is a resident of Maryland.

**Loel S. Solomon**
Loel Solomon joined Kaiser Permanente’s Community Benefit Program in 2003 as the National Director of Community Health Initiatives and Evaluation. In that position, Dr. Solomon is responsible for the design, implementation and evaluation of a national effort to improve health in Kaiser Permanente communities through multi-sectoral, place-based efforts focusing on environmental and policy change. This effort, Community Health Initiatives for Healthy Eating and Active Living, or HEAL, is a critical element of Kaiser Permanente’s comprehensive approach to preventing obesity and obesity-related diseases. He also leads the Community Benefit program’s overall evaluation effort. Prior to coming to Kaiser Permanente, Dr. Solomon served as Deputy Director of the California Office of Statewide Health Planning and Development (OSHPD) for Healthcare Quality and Analysis, where he oversaw the state’s hospital outcomes reporting program, analyses of racial and ethnic health disparities and dissemination of healthcare data to researchers and members of the public. He served as a senior manager at the Lewin Group in Washington, D.C. and as a member of Senator Edward Kennedy’s health staff. He also served on President Bill Clinton’s Task Force on National Healthcare Reform. Dr. Solomon received his Ph.D. in Health Policy from Harvard University and a Master of Public Policy degree at University of California, Berkeley. He is the author of several journal articles and a book chapter.

**Andrés Soto**
Andrés Soto is a veteran of policy campaigns for gun control and violence prevention. As Director of the West County Healthy Eating Active Living (HEAL) Collaborative in California, Andrés is continuing his work to change policy from the grassroots up. Working with the healthcare, school, and business sectors of the Richmond community, as well as CBOs and community members, HEAL addresses policies to reduce risk factors for obesity.
**Rosa Soto**
Rosa is currently the Regional Director for the California Center for Public Health Advocacy. As Regional Director she supports grassroots advocacy efforts in Los Angeles County that are localized and effective at influencing local and state policy. Rosa leads the People on the Move collaborative in the City of Baldwin.

**Christof Spieler**
Christof Spieler is Director of Technology and Innovation for Morris Architects, chair of the editorial committee of Cite Magazine, a lecturer at Rice University, and a board member with the Citizens' Transportation Coalition. He has written extensively about transportation and urban design in Cite and his blog, Intermodality.

**Rebecca Stahr**
A Certified Aging-in-Place Specialist and Certified Active Adult Specialist in Housing, Rebecca promotes partnerships to create positive change through strategic design and marketing resources for livable communities. Spanning two decades working with builders, developers, remodelers, health care providers, non-profits, and consumers, Rebecca supports progressive leaders in maximizing their goals for quality of life.

**Michelle Steinberg**
Michelle Steinberg is the Communities Support Manager for the national Firewise Communities Program. Her duties involve developing resource networks for communities that want to improve their ability to withstand fire in the wildland/urban interface, as well as research, writing and presentations. Key projects include managing the national Firewise Communities/USA(r) Recognition Program and developing guidance in the form of how-to newsletters and best practice manuals for residents, local governments, and state agencies.

Michele has worked since 1989 in the areas of natural hazards and land use planning, and disaster safety marketing and outreach. She is the author of numerous articles and technical documents on disaster safety and mitigation planning, and holds a BA in English from Brandeis University and an MA in urban planning from Boston University.

**Cindy Steinhauser**
Cindy Steinhauser has been with the city of Dubuque since January 1995 and has been the Assistant City Manager since May 2001. Originally from Dubuque, Cindy graduated from Loras College with a Degree in Finance and a Degree in Economics. Cindy oversees the administration of city services. Some of her current projects include implementation of the Downtown Master Plan, Warehouse District Revitalization Strategy and the Sustainable Dubuque Initiative.

**Patrick Stoner**
Patrick Stoner is the Resource Conservation Program Director for the Local Government Commission. LGC's recent energy programs have provided energy efficiency design assistance for new residential development plans; help for local governments to procure, finance and install renewable energy systems; assistance to two California counties, and the cities within them, to establish energy offices to develop and implement regional energy programs; and assistance to communities investigating the feasibility of Community Choice Aggregation. LGC has also developed smart growth water principles and implementation assistance for them.
Edwin Stromberg
Ed Stromberg is Program Manager the Regulatory Barriers research program and the Environmental Impacts research program in the U.S. Department of Housing and Development’s Office of Policy Development and Research. As program manager, he is responsible for developing, implementing and managing research on the Department’s regulatory barriers initiative and on brownfields, green building, growth management issues, and the relationship between environmental mandates and housing and community development programs. With over thirty years of experience as a program manager of federal research on urban housing research issues, Mr. Stromberg has also managed major research initiatives on neighborhood preservation, intergovernmental cooperation and reform, and urban rehabilitation efforts, and fair housing initiatives.

Steve Stuart
Steve Stuart has been a County Commissioner in Clark County, Washington since 2004 and has been an advocate for smart growth issues during his entire professional career. Steve has extensive land use experience at both the local and state levels. He has degrees in business, sociology, community development, and law.

Kathy Sykes
Kathy Sykes has held health and aging policy positions during the past 24 years. Since 2002, she serves as the Senior Advisor for the U.S. EPA Aging Initiative. Prior to her work at the EPA she worked for the U.S. Senate Special Committee on Aging and for Congressman Obey.

Jeff Taebel
Jeff Taebel, FAICP, is Director of Community and Environmental Planning at the Houston-Galveston Area Council (H-GAC), where he oversees the agency’s community and environmental planning, socioeconomic modeling, economic development and community enhancement initiatives. He has 25 years of experience in urban and regional planning, including 21 in his current position. Actively involved in community service, professional development and planning education, Jeff is a former President of the Texas Chapter of the American Planning Association and in 2008 was inducted as a Fellow of the American Institute of Certified Planners. Jeff received a Master of Urban Planning from Texas A&M University and a B.S. in Life Sciences from the University of Nebraska.

Matt Taeciker
As the Principal Planner for the City of Berkeley, Matt Taecker, AICP, is guiding Berkeley California's development of its Downtown Plan, which focuses on sustainability, historic preservation, retail revitalization, and improvements to the public realm. For over two decades, Matt has developed innovative city and regional plans, policies, and development master plans. Prior to working for the City of Berkeley, Matt was a founding Principal of Catalyst, known for best practices around urbanism and storm water quality. For a decade before that, Matt was a Principal at Calthorpe Associates, a leader in transit-oriented development, smart growth and sustainable design since the 1980s. Matt has numerous papers on: transforming suburban and urban settings to be more walkable and transit-oriented. He has taught at the University of Southern California and at University of California at Berkeley where he received his Master in Architecture and Master of City Planning degrees. Matt is Secretary of the California Planning Roundtable. He received his bachelor’s degree in Urban Policy from the University of Chicago.

Manjeet K. Tangri
Manjeet Tangri, AIA, AICP, is an Urban Design Planner with the City of Albuquerque. She has initiated and managed many neighborhood, community development plans and transportation and quality of life projects in Albuquerque, Boston and Minneapolis. Ms. Tangri has a Masters of Architecture degree from Harvard University and Bachelors of Architecture with honors from Punjab University in India.

David M. Taylor
Mr. Taylor currently serves on HDR’s national transit planning staff, and he leads the firm’s Transit-oriented Development practice. In this capacity, Mr. Taylor’s experience includes transit systems plans and transit corridor plans, including Bus Rapid Transit projects in Charlotte, NC and Tampa, FL. His TOD work involves over 100 station area planning and development projects, including codes and ordinances. He also serves as the National Director for Sustainable Transportation Solutions, where he coordinates a program to incorporate environmental, community, and economic interests into every transportation project.

Gale Tedhams
As director of Owens Corning’s Sustainable Communities and Green Products, Gale Tedhams is responsible for leading the company’s global sustainability strategy and manages programs related to building sustainable communities and the green products that make them successful. Tedhams joined Owens Corning in 1978 and has delivered successful results across several of its businesses and functional areas, including manufacturing leadership (in both the U.S. and Europe), global diversity leadership, and product line leadership in the Insulating Systems business.

Jean Tennyson
Jean Tennyson has working in the fields of solution design and leadership for nearly three decades. She is currently CEO for Navigating Our Future, a trans-partisan social sector organization that provides the processes and framework to enable Americans working within their communities and nationwide to resolve complex social issues.

Ken Testa
Dr. Ken Testa serves as Chief Facilities Officer for Merced City School District in California's central valley. He oversees the comprehensive facilities program, including site acquisition, new school planning, design, and construction. His doctoral dissertation and current role highlights the benefits and best practices of developing joint-use facility agreements.

Elizabeth “Boo” Thomas
Elizabeth "Boo" Thomas, ASLA, is President and CEO of the non-profit Center for Planning Excellence, which coordinates urban, rural and regional planning efforts in Louisiana. She holds a master's degree in Landscape Architecture from LSU and was a leader of the award-winning Louisiana Speaks regional planning effort after the 2005 hurricanes.

Ron Thomas
Ron Thomas, AICP is known for marshalling leading communication technology supporting interactive planning for smart growth, and sustainable futures. He has led the practice of vision, strategic planning from Washington DC, to Washington State to Sustainable Racine, and most recently, as executive director of the Northeastern Illinois Planning Commission (NIPC).
**Sharon Thomas**
Sharon Thomas is a city councilor in Las Cruces, NM. Before retirement, she taught at Michigan State University where she taught first-year composition students to research Smart Growth projects in their home communities. She has also owned a small business in Las Cruces, the Red Mountain Café.

**Edward Thompson, Jr.**
Edward Thompson, Jr., is California Director of American Farmland Trust, a national nonprofit organization committed to preserving farmland and helping farmers safeguard the environment. He is one of the nation’s leading experts on the relationship between agriculture, land development and the environment. He recently authored *Think Globally, Eat Locally: A San Francisco Foodshed Assessment*, available at www.farmland.org/california.

**Shannon Tocchini**
Shannon Tocchini is the Corporate Sustainability Manager for HDR Inc., a full-service Engineering, Architecture and Consulting firm. Her focus is primarily on HDR’s internal practices and programs, implementing/integrating sustainable practices company-wide, as well as providing leadership for HDR’s Corporate Sustainability Initiative. She is a member of HDR’s Sustainable Solutions Leadership Team, and has a leading role in HDR’s Climate and GHG Management Practice Group.

**Ken Topping**
Ken Topping of Topping Associates International, is a lecturer and project director of the California Multi-Hazard Mitigation Plan at California Polytechnic State University in San Luis Obispo. He is former LA City planning director, co-author of *Planning for Post-Disaster Recovery and Reconstruction*, and Technical Advisory Committee member, New Orleans Office of Recovery Management & Development Administration.

**Steve Tracy**
Steve Tracy is a Senior Research Analyst with the Local Government Commission. He is the principal author of the Local Government Commission’s new planner’s handbook on developing zoning codes and policies that encourage smart growth development. From 1983-1997, Tracy focused on land use and transportation issues as an Associate Planner with the County of Sacramento, where he led the County’s general plan transportation team. He has published papers on urban growth limitations, land use and transit linkages, and energy issues. Tracy chaired the City of Davis Downtown Specific Plan task force, and has served on numerous committees and commissions, including the City of Davis Natural Resources Commission and the University of California at Davis Extension Land Use Program Advisory Board. Tracy received a BA degree in Anthropology from the University of California at San Diego in 1972. He holds a BS and a Masters from the University of California at Davis in Environmental Policy Analysis and Planning and Ecology, respectively.

**George Tremblay**
George Tremblay, AIA, is a Principal at Arrowstreet, a multi-disciplinary design firm in Massachusetts. George has led numerous teams in commercial and institutional projects throughout the United States and abroad. His particular expertise is urban mixed-use developments, where the value of the end product exceeds the sum of the individual components.

**Sarah Treuhaft**
Sarah Treuhaft is a senior associate at PolicyLink in Oakland, California. She manages research and action projects focused on the use of data and mapping for community change, equitable development,
and access to healthy food. Treuhaft holds a master’s degree in city planning from the University of California, Berkeley.

**Greg Trimmer**
Mr. Trimmer is a Vice President of Development for The JBG Companies, one of Washington D.C.’s most active real estate developers with over $4 Billion in equity under management, and 30 million square feet of residential, office, retail, and hotel properties in its portfolio. Mr. Trimmer oversees a 4 million square foot mixed-use development pipeline in Montgomery County, MD. In addition, he is a senior member of JBG's government services team, having delivered nearly 2 million square feet of build-to-suit projects to the U.S. Government. B.S. Civil Engineering, University of Virginia; M.B.A. Kellogg School of Management, Northwestern University.

**Jeffrey Tumlin**
Jeffrey Tumlin is a principal at Nelson\Nygaard, a transportation planning firm with a focus on infill development, multimodal planning and sustainability initiatives. He has led the transportation planning for over 50 station areas at a dozen different rail agencies, and is currently finalizing a climate action plan for BART.

**Gregory Tung**
Gregory Tung is a Principal of Freedman Tung and Bottomley, a San Francisco-based firm focused on strategic urban design for built-out cities. The firm’s implemented plans and built projects are located in cities throughout the western United States. Mr. Tung studied architecture at Yale University and the University of California-Berkeley.

**Diane M. Turchetta**
Diane Turchetta is an Environmental Protection Specialist in FHWA’s Office of Planning. Diane primarily works on integrating climate change issues into the transportation planning process and the Planning and Environment Linkages (PEL) initiative. Prior to joining the Planning team, Diane worked for over seven years in the Office of Natural and Human Environment focusing primarily on transportation-related air quality issues including climate change, energy use, and alternative fuels. She holds a Bachelor of Science degree in Public Administration from the Pennsylvania State University and a Masters Degree in Public Administration from Virginia Polytechnic Institute and State University. Before joining the U.S. DOT, Diane worked at the U.S. Environmental Protection Agency on fuel-related issues and served as National Program Manager for the Oxygenated Fuels Program.

**Serena Unger**
Serena Unger is an Associate at Bay Area Economics (BAE) where, among other work, she consults on questions of urban agriculture as a feasible component of development, as well as the economics of small farms, public markets, and other distribution channels for locally-grown food. She is co-author of the *Oakland Food Systems Assessment: Toward a Sustainable Food Plan*.

**Sarah van der Schalie**
Sarah van der Schalie is a Coastal Management Specialist with the National Oceanic and Atmospheric Administration’s (NOAA’s) Office of Ocean and Coastal Resource Management, Coastal Programs Division. Sarah is a liaison to the state coastal programs of North Carolina, South Carolina, and Georgia and works on regional and national coastal management issues. Sarah holds a Masters degree in Environmental Management from Duke University’s Nicholas School of the Environment and Earth Sciences and a Bachelors degree in Geography/Environmental Studies and International Development
Studies from the University of California, Los Angeles. Prior to attending graduate school and joining NOAA, Sarah was a Coastal Program Analyst for the California Coastal Commission.

**Alison Van Gorp**

Alison Van Gorp directs the Cascade Agency Cities Program, a regional effort that partners with cities to help them understand their options and make smart choices for future growth. Teaming with diverse stakeholders, Alison leads the development of urban policy and the effective planning tools necessary to create vibrant, livable communities throughout the region, while conserving working farms, forests and natural areas. Alison holds a Masters in Environmental Management from the Yale School of Forestry and Environmental Studies.

**Bridget Vance**

Bridget Vance, Community Safety Coordinator at Focus: HOPE, in Detroit, Michigan. As community liaison she collaborates with community stakeholders and Detroit Police Department to address community safety concerns. She applies CEPTED principles to decrease and in some cases eliminate environmental factors which contribute to crime.

**Jeff Vincent**

Jeff Vincent, PhD, is Deputy Director and Co-Founder of the Center for Cities & Schools at the University of California-Berkeley, formed to bridge the fields of city planning, community development, and public education. Much of Jeff’s work focuses on the role school facilities play in place-making and community change.

**Monica Hobbs Vinluan**

Monica Vinluan, J.D., joined the YMCA of the USA in 2007 as Project Manager for Healthier Community Initiatives responsible for the ACHIEVE initiative. Monica has served as a government relations professional on a variety of health and well-being issues for nine years and has been a professional advocate for health promotion issues for 16 years. She completed her J.D. at American University.

**Chris Walker**

Chris Walker is Director of Research and Assessment for the Local Initiatives Support Corporation, the nation’s foremost community development intermediary. He is responsible for assembling, conducting, sponsoring, and disseminating high-quality research on community development’s contributions to the well-being of individuals, families and communities.

**Doug Walker**

Doug Walker is the President and Principal of Placeways, LLC. Placeways, LLC is the home of CommunityViz, the popular GIS-based planning and visualization software produced in partnership with the Orton Family Foundation. Using CommunityViz and other innovative tools, Placeways’ consulting group brings new levels of engagement and informed understanding to community planning.

**Allan Wallis**

Allan Wallis is associate professor of public policy at the School of Public Affairs, University of Colorado Denver. He is coauthor, with Doug Porter, of the monograph—*Ad Hoc Regionalism*—published by the Lincoln Land Institute. He is a member of the Lincoln Institute team developing a comprehensive evaluation of state growth management.
Jerry Walters
Jerry Walters is a Principal with Fehr & Peers transportation consultants, has performed transportation and climate assessments for the USEPA, APTA, Air Resources Boards and Caltrans. Jerry co-authored ULI’s 2008 Growing Cooler – the Evidence on Urban Development and Climate Change, and "Mixing it Up" on impact reduction through successful mixed-use development.

Heather K. Way
Heather Way is a lawyer and the director of the Community Development Clinic at the University of Texas School of Law. Her recent worked has focused on issues surrounding abandoned properties in cities. She helped draft the Texas land bank program laws and has been involved in the implementation of these programs.

Richard Weaver
Rich Weaver is Senior Program Manager, Planning and Programs under the Policy Department of the American Public Transportation Association in Washington, D.C. He serves as staff advisor to the APTA State Affairs Committee and the APTA Policy and Planning Committee, and its subcommittees. Rich has been with APTA for over 20 years. He lives in Arlington, Virginia. He has background in urban planning and economics from Villanova University.

Ford Weber
Ford Weber is the Executive Director of Virginia office of the Local Initiatives Support Corporation (LISC) in Richmond, Virginia. LISC is a national nonprofit organization established by the Ford Foundation in 1980 to facilitate community revitalization. A Toledo native and former attorney, Ford served in a number of positions in the City of Toledo for five years, including as Commissioner of Real Estate, Director of Neighborhoods, and Deputy Director of Economic and Community Development. Ford also served as the Director of Housing and Neighborhood Services for the City of Roanoke, Virginia. In Toledo and Roanoke, Ford successfully developed holistic urban redevelopment strategies incorporating brownfield redevelopment and smart growth principles.

John Weidman
John Weidman is the Deputy Executive Director he works closely with the Executive Director, the Founder, and senior staff of The Food Trust to oversee all programs and provide strong leadership for the organization. He develops and advances public policies at the local, state and federal levels; and educates local, state and federal policy makers about the factors impacting the nutrition of lower-income people. John oversees a comprehensive communications strategy and provided executive leadership in the successful start-up of the Headhouse Farmers’ Market, Philadelphia’s largest open-air farmers’ market. John has 15 years of experience in public policy advocacy and nonprofit communications. He holds a Master’s degree in Political Science from the University of Pennsylvania.

Neil Weinstein
Neil Weinstein is the Executive Director and co-founder of the Low Impact Development Center. He is a registered engineer and landscape architect with a background working on municipal, institutional, and private sector projects. For the last 10 years he has focused on the planning, research, and design of innovative stormwater management practices.

Sandra Whitehead
Sandra Whitehead is currently the Public Health Planner at the Florida Department of Health, Division of Environmental Health. Sandra has been with the department since October of 2007. She has worked
as a land use planner and has an extensive background in affordable housing and local government planning and finance. Prior to joining the department, she taught classes on sustainable housing development and public administration at Florida State University.

**Kizito Wijenje**

Kizito Wijenje is charged with identifying and assessing the district's capital needs, educating APS' leadership/community of such needs, and facilitating the implementation of the capital funds in new educational facility capital projects as well as improvements and refurbishments. Mr. Wijenje also works with local business concerns as well as State and Federal agencies regarding capital infrastructure and community planning issues that may affect APS schools and the district in general. He holds Bachelor Degrees in Economics, Political Science, and a Masters Degree in Community and Regional Planning from the University of New Mexico.

**John Williams**

Mr. Williams has spent the last 29 years as an advocate for community interests. In 2006 he was appointed to his current HDR position of leadership in sustainability, renewable energy, integrated solid waste planning, climate change, and greenhouse gas management. He represents the firm in a national forums focused on sustainability including: The Global Roundtable on Climate Change, The Clinton Global Initiative, and the U.S. Conference of Mayors Climate Protection Council. Most recently Mr. Williams co-authored an article entitled, “Determining the Right Shade of Green for a Specific Community” published in the April 8th Issue of Sustainability: The Journal of Record.

**Michael Williams**

Michael Williams is a Development Project Manager for the City of Richmond (CA) in the Richmond Community Redevelopment Agency where he works primarily on transit-oriented and transit-related projects. Prior to joining the agency, Michael worked in both the public and private sectors in Southern California.

**Rick Williams**

Mr. Williams’ work has been on the forefront of mixed use pedestrian and transit-oriented planning and urban design. The scale of projects range from residential developments, mixed-use neighborhoods and urban infill to community plans and new town proposals. As a partner in Van Meter Williams Pollack, Rick brings his diverse background and extensive experience to focus on planning and urban design projects involving mixed use, pedestrian and transit oriented developments as well as project management and construction administration efforts for a variety of the firm’s building projects. Projects Rick has been recently involved include the MacArthur Boulevard Streetscape Concept Plan; Millsmont Urban Design Plan, S.F. Transit Oriented Neighborhood Planning, Prescott /Acorn Neighborhood Transportation Plan, Westminster Traditional Neighborhood Design Guidelines, the Fremont CBD Plan, and the Fremont Small Lot Residential Design Guidelines.

**Clark Wilson**

Clark Wilson is an urban designer with the Smart Growth and Green Building Division at the EPA. Mr. Wilson’s area of focus in the Division is ecologically sustainable development, with a specific concentration in advancing the transportation, livability, and environmental goals of smart growth in street design.

**Steve Windhager**
Dr. Steve Windhager directs the Landscape Restoration Program at the Lady Bird Johnson Wildflower Center - an organized research unit of the University of Texas. This program conducts research in applied ecology and sustainable landscape design and offers fee-based consulting on a wide variety of ecological issues.

**Michaella Wittmann**
As the founder and director of HDR Sustainable Design Solutions, Ms. Wittmann has been a leader in sustainability and green building for over thirteen years. Ms. Wittmann's work includes over 20 LEED projects, sustainable guidelines for government agencies and organizations, training for over 3,000 people, and multi-million dollar infrastructure projects.

**Don Wiviott**
For 14 years Don Wiviott has been a leader in sustainable building in Santa Fe. His projects are mixed-use, mixed-income, transit–oriented, employ solar thermal applications, and complete water recycling. Don has a BA in Environmental Studies from Dartmouth and an MBA from Harvard.

**Karen Wolf**
Karen Wolf, AICP, is a Senior Executive Policy Advisor in the Office of King County Executive Ron Sims. Ms. Wolf advises the Executive on issues relating to land use, regional planning, and the environment. Ms. Wolf also serves as the co-project manager on the King County HealthScape study. This study was initiated in 2001 to measure how specific land use decisions and transportation investments affect climate change, mobility and congestion, and public health. She is also a member of the King County Place Matters Team, part of a national effort to improve the health of the participating communities by addressing social conditions that lead to poor health. Ms. Wolf earned her Bachelor of Economics and Masters of Urban Planning from the University of Washington, and has a Professional Certification with the American Institute of Certified Planners (AICP). In 2005, Ms. Wolf was recognized by the Washington State Chapter of the American Planning Association as the recipient of the Barbara Grace Award for promoting the ideals of planning through service to the public.

**Keith Woodcock**
Keith Woodcock is the Community Development Director with the City of Delano, California. He received his master’s degree in City and Regional Planning from California State University of Fresno. Keith has over 20 years of planning experience primarily working with minority communities in the San Joaquin Valley of California.

**Heather Wooten**
Heather Wooten is a Planning and Policy Associate at Public Health Law & Policy where she works with communities across the country on developing local policies that support healthy, sustainable, and economically vibrant neighborhoods. She is a co-author of *How to Create and Implement Healthy General Plans*.

**Carl Wren**
Carl D. Wren is chief engineer for the Austin Fire Department. His section performs all plan review duties of the Fire Department, including site plan, building permit, and fire/life safety system shop drawing review. He is a professional engineer, certified firefighter, fire inspector, fire service instructor, and a Texas A&M University graduate.

**Philip Wu**
Dr. Philip Wu is a practicing pediatrician with Kaiser Permanente in Portland, Oregon and is the clinical pediatric lead for Kaiser’s Care Management Institute Weight Management Initiative. He educates clinicians on best practices for the identification and assessment of childhood obesity and advocates for improvements in the “built environment,” one of the major barriers to families living healthier lives.

**Jim Yienger**

Jim Yienger is the Technical Director at ICLEI USA. He has been with ICLEI for seven years, starting as an International Program Manager. As Technical Director he is currently in charge of ICLEI’s efforts to develop tools and protocol needed by local governments to understand and reduce GHG emissions. He developed, designed, and/or managed ICLEI’s flagship GHG inventory software products such as CACPS and HEAT- the world’s first online multi-country multi-lingual GHG management tool for local governments. Recently he led technical implementation of ICLEI’s partnership with Microsoft and the Clinton Foundation to create Project 2 Degrees, the latest software innovation for local government climate action planning. Earlier with ICLEI, he managed a number of international climate programs with cities throughout Asia, Africa, and Latin America. He established ICLEI’s office in India.

**Sam Zimbabwe**

Sam Zimbabwe, LEED AP, is an urban designer with a background in transit-oriented development planning and pedestrian-oriented design projects. As Technical Assistance Director with Reconnecting America, Sam leads efforts to create national standards and best practices with the American Public Transportation Association and provides technical assistance on TOD programs and policies in cities across the country.

**Paul Zykofsky**

Paul Zykofsky manages the Local Government Commission’s land use and transportation programs and has been Director of the Commission’s Center for Livable Communities since 1995. As director of the Center, he provides technical assistance to communities throughout the nation. He is co-author of documents on transit-oriented development and has edited documents on infill development, street design, traffic calming, smart growth zoning codes, compact development, revitalizing older suburbs and smart economic development.
