The Global Supply Chain

Top 10 Ports and Regional Hubs
(by Imports 2009 TEUs)

Expansion of Trade and Freight

- International trade at all-time high – almost all ports growing
- Dominance of China as exporter/trade partner
- Panama Canal expansion prompting East Coast port expansion
- Public investments → highway and rail expansion
- Inland rail and warehouse hubs
Inland Hubs and Spokes

[Map showing various corridors and hubs in the United States]
Ports no longer just on the coastlines

...Forecasted to grow over 100M sq. ft. for third consecutive year

The I-710 Corridor Project EIR/EIS

Information Flow among the Groups & Committees of the I-710 EIR/EIS

**Technical Working Groups**
- Alternative Technology TWG
- Traffic Forecasting TWG
- Geometrics TWG
- Air Quality / Health Risk Assessment TWG
- Agency Air TWG

**Subject Working Groups**
- Transportation SWG
- Community Design SWG
- Environmental SWG

**Advisory Committees**
- TAC
- CAC

**Policy Committees**
- Project Committee
- Executive Committee

**Technical Expert Groups**
- Technical Working Groups (TWGs): These expert groups are made up of staff from agencies that are engaged in the EIR/EIS process and have relevant technical expertise relative to their working group subject area. They provide technical input to the Project Team specific to the subject matter of their respective technical topics.
- Agency Air Technical Working Group (AATWG): This specialty group is made up of air quality agencies and other agencies engaged in the EIR/EIS process. This group provides technical input to the EIR/EIS related to health risk and air quality.

**Community / Stakeholder Groups**
- Local Advisory Committees (LACs): These committees represent each of the cities and unincorporated county areas along the I-710 corridor. LAC members represent the perspective of residents and business owners in their respective communities.
- Subject Working Groups (SWGs): These open-participation groups are made up of representatives from the LACs with subject matter interest, as well as TAC representatives and other appointees with subject matter expertise. These groups delve more deeply into the specifics of transportation, community design, and the environment, and provide key findings to the CAC.

**Corridor Advisory Committee (CAC):** This advisory group is comprised of the Chairs of each LAC, the TAC Chairperson, and other appointees representing corridor-wide interests. This committee makes recommendations to the Project Committee.

**Policymaking Groups**
- Project Committee (PC): This committee is made up of elected officials and Funding Partner representatives who make recommendations to the Funding Partners and Caltrans on key assumptions and decisions in the EIR/EIS process.
- Executive Committee (EC): This high-level committee is comprised of representatives from Los Angeles County and the Funding Partner agencies, as well as the co-Chairs of the Project Committee. This committee provides policy direction and final recommendations to Caltrans and FHWA.

For more information about the project, its history, the community participation framework, public meeting schedules, and other opportunities for involvement, please visit metro.net/710eir or contact us at 213.922.4710 or 710eir@metro.net.
