Understanding the Benefits of Special District Financing
New Partners for Smart Growth Conference 2016
Speakers

- Debbie Bassert, National Association of Home Builders/Moderator
- Carter Froelich, Development Planning & Financing Group, Inc.
- Steve Heaney, Stifel, Nicolaus & Co., Incorporated
Learning Objectives

- Learn about the array of Special District financing tools that are available today.
- Understand the many benefits of these tool for both the public and private sectors, plus consumers, compared with other municipal finance tools.
- Hear how they have been used successfully to fill the financing gaps that exist today.
The Infrastructure Financing Challenge

- Development more complicated and riskier today
- Limited commercial lending for new development
- Government revenues remain strained too
  - How to finance infrastructure efficiently and effectively without driving up housing costs
  - More and better financing mechanisms are needed today than ever before
The Search for Solutions

- Need to better understand available tools and where they have been used successfully
- Rethink assumptions and better leverage available existing resources
- Requires innovation and collaboration between public and private sectors
