American Planning Association

Making Great Communities Happen

What is a Comprehensive Plan?

- Official policy statement guiding future growth, preservation, or change of the local legislative body
- Long-range timeframe of 20-30 years
- Addresses a range of interconnected systems
 - e.g., land use, transportation, housing, economic development, the environment, public health, climate change, intergovernmental cooperation
- Provides the legal foundation for local development regulations

As the leading policy document guiding the long-range development of local jurisdictions in the United States, the comprehensive plan plays a critical role in planning for sustainability.

- Sustaining Places: Best Practices for Comprehensive Plans, January 2015

Effective Comprehensive Plans

• covering multiple, interconnected community systems (land use, transportation, natural resources, economic development, etc.)

Inclusive

 involving citizens in the planning process from visioning and goal setting to establishing priorities for action

Implementable

 providing the mandate to guide development, capital investment, and other long-range decision-making by local governments

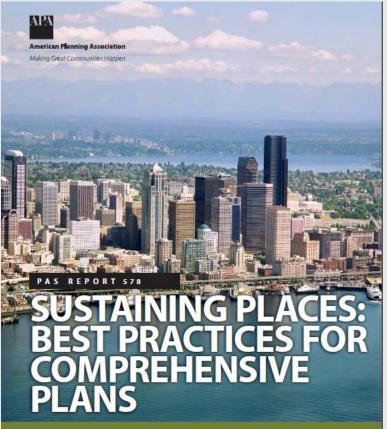

Scalable

 setting the framework for action at the intra-jurisdictional (district and site) and extra-jurisdictional (neighboring communities, region, and beyond) levels

Comprehensive Plan Standards for Sustaining Places

The ultimate aim is to help planners and the communities they serve realize the powerful potential of the comprehensive plan to sustain twenty-first century places.

Comprehensive Plan Standards Framework

- Principles: normative statements of intent that underlie a plan's overall strategy, including its goals, objectives, policies, maps, and other content.
- **Processes:** *planning activities* that take place during the preparation of a comprehensive plan and define how it will be implemented.
- Attributes: *plan-making design standards* that shape the content and characteristics of comprehensive plans.
- **Best Practices:** *planning action tools* that activate the principles, processes, and attributes.

Plan Principles

- 1. Livable Built Environment
- 2. Harmony with Nature
- 3. Resilient Economy
- 4. Interwoven Equity
- 5. Healthy Community
- 6. Responsible Regionalism

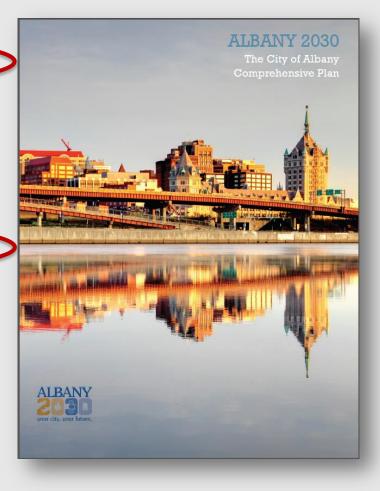

Plan Principles

- 9. Consistent Content
- **10. Coordinated Characteristics**

Plan Processes and Attributes

7. Authentic Participation

8. Accountable Implementation

9. Consistent Content

10. Coordinated Characteristics

1. Livable Built Environment

Ensure that all elements of the built environment, including land use, transportation, housing, energy, and infrastructure, work together to provide sustainable, green places for living, working, and recreation, with a high quality of life.

Livable Built Environment: Best Practices			
1.1 Plan for multi-modal transportation.	1.7 Encourage design standards appropriate to the community context.		
1.2 Plan for transit-oriented development.	1.8 Provide accessible public facilities and spaces.		
1.3 Coordinate regional transportation investments with job clusters.	1.9 Conserve and reuse historic resources.		
1.4 Provide complete streets serving multiple functions.	1.10 Implement green building design and energy conservation.		
1.5 Plan for mixed land-use patterns that are walkable and bikeable.	1.11 Discourage development in hazard zones.		
1.6 Plan for infill development.			

4. Interwoven Equity

Ensure fairness and equity in providing for the housing, services, health, safety, and livelihood needs of all citizens and groups.

Photo: City of Austin

Interwoven Equity: Best Practices	
4.1 Provide a range of housing types.	4.6 Upgrade infrastructure and facilities in older and substandard areas.
4.2 Plan for a jobs/housing balance.	4.7 Plan for workforce diversity and development.
4.3 Plan for the physical, environmental, and economic improvement of at-risk, distressed, and disadvantaged neighborhoods.	4.8 Protect vulnerable populations from natural hazards.
4.4 Plan for improved health and safety for at-risk populations.	4.9 Promote environmental justice.
4.5 Provide accessible, quality public services, facilities, and health care to minority and low-income populations.	

7. Authentic Participation

Ensure that the planning process actively involves all segments of the community in analyzing issues, generating visions, developing plans, and monitoring outcomes.

Photos: City of Seattle

Authentic Participation: Best Practices

7.1 Engage stakeholders at all stages of the planning process.	7.5 Provide ongoing and understandable information for all participants.
7.2 Seek diverse participation in the planning process.	7.6 Use a variety of communications channels to inform and involve the community.
7.3 Promote leadership development in disadvantaged communities during the planning process.	7.7 Continue to engage the public after the comprehensive plan is adopted.
7.4 Develop alternative scenarios of the future.	

8. Accountable Implementation

Ensure that responsibilities for carrying out the plan are clearly stated, along with metrics for evaluating progress in achieving desired outcomes.

NEW JOBS ADDED (SAME IN ALL SCENARIOS)			172,000	
NEW RESIDENTS ADDED (SAME IN ALL SCENARIOS)		312,000

Accountable Implementation: Best Practices

8.1 Indicate specific actions for implementation.	8.5 Identify funding sources for plan implementation.
8.2 Connect plan implementation to the capital planning process.	8.6 Establish implementation indicators, benchmarks, and targets.
8.3 Connect plan implementation to the annual budgeting process.	8.7 Regularly evaluate and report on implementation progress.
8.4 Establish interagency and organizational cooperation.	8.8 Adjust the plan as necessary based on the evaluation.

Plan Scoring System

Procedure to measure a comprehensive plan against a national standard

Establishes scoring criteria for best practices

- Not Applicable

SUSTAINABILITY TOOLS FOR ASSESSING & RATING COMMUNITIES

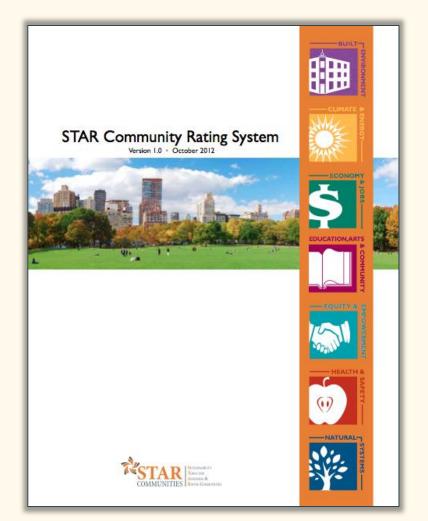

Integrating Sustainability into Your Community's Comprehensive Plan

New Partners for Smart Growth Conference February 11, 2016

STAR COMMUNITY RATING SYSTEM

The STAR Community Rating System (STAR) is the nation's leading comprehensive framework and certification program for measuring local sustainability. STAR was built by and for local governments and the communities they serve.

SUSTAINABILITY TOOLS FOR Assessing & Rating Communities

STAR DEVELOPMENT TIMELINE

- 2007: STAR concept released at Greenbuild-Chicago and as a Clinton Global Initiative (CGI) commitment.
- 2008: Founding partners (U.S. Green Building Council, National League of Cities, ICLEI and Center for American Progress) commence diverse, consensusbased stakeholder engagement process that includes more than 200 volunteers.
- 2012: STAR Communities established as independent 501c3 nonprofit organization. Rating System v1.0 released in October. Tested by 30+ pilot communities in 2012-13.
- **2013:** First community becomes certified Tacoma, WA.
- 2015: 40 million people in 95+ cities and counties live in a STAR Community.
- 2016: 50+ STAR Certified Communities, Post-Certification Workshops, Version 2.0, Leading STAR Community Indicators project launch

COMINIUNITIES | RATING COMMUNITIES

THE STAR COMMUNITY RATING SYSTEM

Goal Areas & Objectives are rated and evaluated in the online system, helping local leaders set goals and measure progress across all areas.

Built Environment	Climate & Energy	Economy & Jobs	Education,Arts & Community	Equity & Empowerment	Health & Safety	Natural Systems
Ambient Noise & Light	Climate Adaptation	Business Retention & Development	Arts & Culture	Civic Engagement	Active Living	Green Infrastructure
Community Water Systems	Greenhouse Gas Mitigation	Green Market Development	Community Cohesion	Civil & Human Rights	Community Health & Health System	Invasive Species
Compact & Complete Communities	Greening the Energy Supply	Local Economy	Educational Opportunity & Attainment	Environmental Justice	Emergency Prevention & Response	Natural Resource Protection
Housing Affordability	Industrial Sector Resource Efficiency	Quality Jobs & Living Wages	Historic Preservation	Equitable Services & Access	Food Access & Nutrition	Outdoor Air Quality
Infill & Redevelopment	Resource Efficient Buildings	Targeted Industry Development	Social & Cultural Diversity	Human Services	Indoor Air Quality	Water in the Environment
Public Spaces	Resource Efficient Public Infrastructure	Workforce Readiness		Poverty Prevention & Alleviation	Natural & Human Hazards	Working Lands
Transportation Choices	Waste Minimization				Safe Communities	

THE STAR FRAMEWORK

7 GOALS

Example: Built Environment

BROAD SUSTAINABILITY THEMES WITH COMMUNITY-LEVEL ASPIRATIONS

44 OBJECTIVES

Example: Housing Affordability

SUBCATEGORIES THAT MOVE THE COMMUNITY TOWARD THE GOAL

108 OUTCOME MEASURES

Example: Demonstrate that 10% of units built are dedicated as subsidized affordable housing

408 ACTION MEASURES

Example: Require, incentivize, or subsidize creation of affordable housing

- 516 EVALUATION MEASURES USED TO ASSIGN POINTS
- CERTIFICATION LEVELS ARE BASED ON # OF POINTS ACHIEVE

Sustainability Tools for Assessing & Rating Communities

CERTIFICATION LEVELS

Certified 5-STAR Community (600+ points) Recognized as top tier achiever in national sustainability

Certified 4-STAR Community (400-599 points) Recognized for national excellence

Certified 3-STAR Community (200-399 points) Recognized for sustainability leadership

Reporting STAR Community Currently pursuing certification

Member STAR Community

A community that has expressed a commitment to the STAR Communities' mission and is using the STAR Community Rating System informally

STAR CERTIFICATION PROCESS

Celebrate, begin gaps analysis & implementation Sign up for membership, get organized & receive training

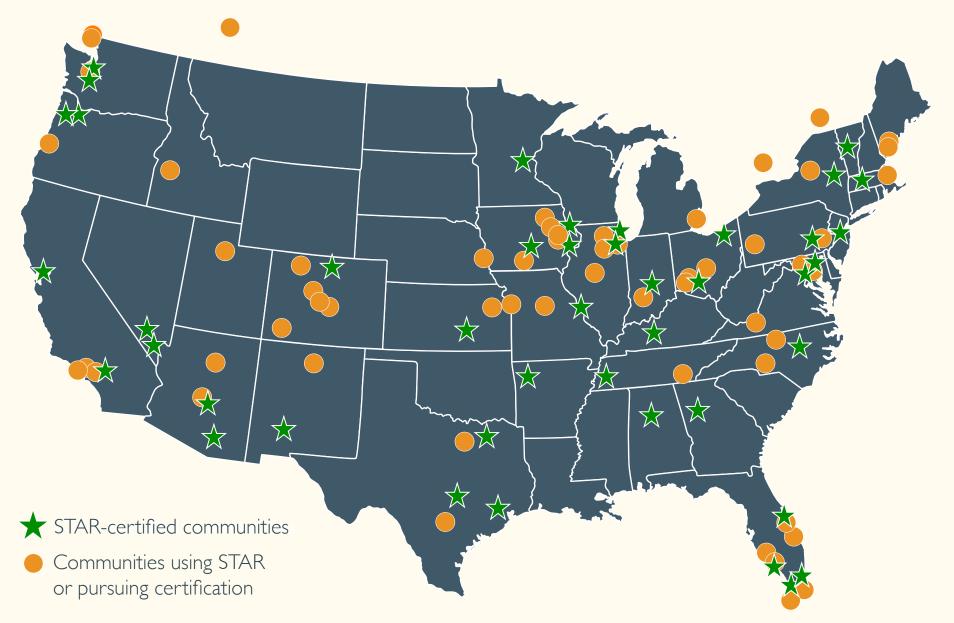

Receive certification – good for 3 years Gather data & report on STAR's evaluation measures using Online Reporting Tool

Go through two-step verification process

SUSTAINABILITY Tools for Assessing & Rating Communities

NEARLY 100 COMMUNITIES IN THE US AND CANADA ARE USING STAR...THAT'S OVER 40 MILLION PEOPLE.

WHO IS STAR CERTIFIED?

As of January 2015, forty-five communities have received a verified STAR Community Rating.

5-STAR Community

- Baltimore, MD
- **4-STAR Community**
- Austin, TX
- Broward County, FL
- Burlington, VT
- Columbus, OH
- Davenport, IA3-STAR Community
- Albany, NY
- Atlanta, GA
- Beaverton, OR
- Birmingham, AL
- Blue Island, IL
- Chandler, AZ
- Cleveland, OH

- Northampton, MA
- Dubuque, IA
- Evanston, IL
- Henderson, NV
- Las Vegas, NV
- Louisville, KY
- Des Moines, IA
- El Cerrito, CA
- Fayetteville, AR
- Fort Collins, CO
- Houston, TX
- Indianapolis, IN

Seattle, WA

- Memphis, TN
- Plano, TX
- Portland, OR
- Raleigh, NC
- Tacoma, WA
- Lee County, FL
- Monroe County, FL
- Palm Bay, FL
- Park Forest, IL
- Phoenix, AZ
- Reading, PA
- Riverside, CA

- Tucson, AZ
- Washington, DC

- Rosemount, MN
- Saint Louis, MO
- Wichita, KS
- Woodbridge, NJ

SUSTAINABILITY TOOLS FOR Assessing & Rating Communities

CERTIFICATION HELPS COMMUNITIES:

- To strengthen plans and policies
- As a planning framework
- To catalyze local action
- To identify and implement new best practices
- To increase buy-in for sustainability work
- To identify gaps and prioritize investment
- To build strategic partnerships
- To communicate and brand sustainability
- To increase transparency and demonstrate accountability and leadership

USE STAR AS A PLANNING FRAMEWORK

STRENGTHEN PLANS & POLICIES

- Plano Tomorrow plan is the vision; STAR provides measurable metrics
- Both support and inform one another
- STAR measures strengths and weaknesses and Plano Tomorrow prioritizes actions based on the desires of public and elected and appointed officials

SUSTAINABILITY Tools for Assessing & Rating Communities

IDENTIFY GAPS & PRIORITIZE INVESTMENT

Gaps identified through STAR Certification informed Seattle Mayor Murray's equity initiative:

- Local priorities include determining who is and isn't benefiting from Seattle's progress
- Engaging people of color, immigrants and refugees, low-income and limited-English proficiency in civicuals in environmental programs and Mayor Murray Snew plans for more Seattle transparency, equity

EQUITY & EMPOWERMENT

+	EE-1: Civic Engagement	10.5 / 15
+	EE-2: Civil & Human Rights	10 / 10
+	EE-3: Environmental Justice	5.3 / 15
+	EE-4: Equitable Services & Access	18.8 / 20
+	EE-5: Human Services	12.4 / 20
+	EE-6: Poverty Prevention & Alleviation	18.8 / 20

IDENTIFY & IMPLEMENT BEST PRACTICES

Reading, PA adopted a Zero Waste Resolution and established a Food Policy Council in advance of verification

Reading seeks 3-star rating from nonprofit organization

By Carole Duran - Reading Eagle correspondent

Wednesday March 25, 2015 12:01 AM

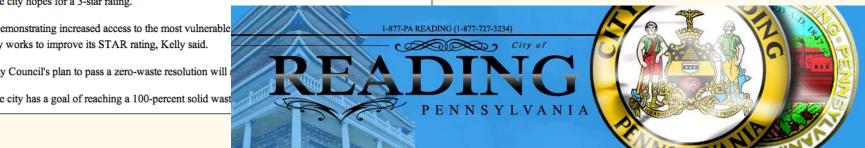

READING - The Reading Environmental Advisory Council got an update on the city's STAR application from Brian Kelly, executive director of ReDesign Reading.

STAR, an acronym for Sustainability Tools for Assessing and Rating Communities, was developed by STAR Communities, a nonprofit organization. It works to help municipal leaders create a healthy environment, strong economy and sustainable future.

Kelly said Tuesday that the city's STAR application was submitted March 2. He expects it could take up to 45 days for the city to be evaluated and given a rating.

Rating points are given for ordinances and measurable initiatives such as recycling programs and community education.

The city hopes for a 3-star rating.

"Demonstrating increased access to the most vulnerable city works to improve its STAR rating, Kelly said.

City Council's plan to pass a zero-waste resolution will a

The city has a goal of reaching a 100-percent solid wast

INCREASE BUY-IN FOR SUSTAINABILITY WORK

Plano, TX hosted a post-certification workshop to go through the gaps identified in their application. Over 40 city staff spent half a day learning more about their results, identifying priority STAR Objectives, and then going through the gap measures to determine which to focus on over the coming years.

BUILD A CULTURE OF SUSTAINABILITY

Evanston, IL is using STAR to integrate multiple initiatives and fully engage the community in "creating the most livable city in America." They created a Livability Academy that has been attended by all city staff - it covers sustainability and livability in Evanston and asks participants:

"How does your work help make Evanston the Most Livable City? What else can we do to make Evanston the Most Livable City?"

Livability Academy included:

- 75 staff per session
- 13 total sessions
- 3.5 hours each
- 6.5 minute video
- 31 presenters
- 6 TED talks

SUSTAINABILITY Tools for Assessing & Rating Communities

COMMUNICATE SUSTAINABILITY

Communities like Park Forest, IL are using their results to better communicate the state of sustainability to residents and stakeholders at community events.

TO INCREASE TRANSPARENCY AND DEMONSTRATE ACCOUNTABILITY AND LEADERSHIP

Each community has a certification report on the STAR Communities website. Certified Communities are also featured in case studies and presentations across the country

WHO'S INVOLVED

Nearly 100 cities, towns and counties are actively using the STAR Community Rating System as their sustainability certification program. Thousands have downloaded the rating system since its release in 2012.

Use our live map and search features to see if your community is involved or to review the final reports of Certified

TUCSON, ARIZONA

The City of Tucson joined the STAR network as a Pilot Community in November 2012. As a Pilot, the community greatly helped to improve STAR through a year-long testing and evaluation period of the STAR Community Rating System and its associated tools and products.

Equity & Environment Initiative

City-community partnership to advance three primary goals:

- All people and communities benefit from Seattle's environmental progress.
- Communities most impacted are engaged in setting environmental priorities, designing strategies, and tracking progress.
- People of color, immigrants and refugees, people with low incomes, and limited-English proficiency individuals have opportunities to be part of and leaders in the mainstream environmental movement.

Memphis-Shelby County Recognized for National Excellence as One of the Nation's Most Sustainable Communities

Memphis-Shelby County was awarded a 4-STAR Community Rating for national excellence in sustainability. The STAR Community Rating System is a robust sustainability rating system for cities, towns, and counties that helps communities evaluate themselves across eight areas related to sustainability, such as built environment, economy and jobs, health and safety, and natural systems. Below shows how Memphis-Shelby County scored for each STAR category. Other 4-STAR communities includer Austin, TX; Portland, OR; and Washington, D.C. For more information on how Memphis-Shelby County plans to build on these results, visit <u>www.sustainabileshelby.com/STAR</u>.

lealth & Safety	75%
