NICHOLAS HAMILTON

DIRECTOR OF URBAN POLICY, THE AMERICAN ASSEMBLY

OUR FRAMEWORK FOR CHANGE

Rigorously and objectively analyze city assets, understanding both opportunities and constraints

Develop a creative vision for the future of the city, grounded in a thorough understanding of its economic geography, the role in its region and its function in the global economy

Design strategies for residential, commercial and industrial areas with approaches tailored to their market potential and also informed by social and environmental factors

Implement inclusive economic growth strategies that address the intensity of concentrated poverty in legacy cities, promoting revitalization that not only attracts newcomers but also increases opportunities for current residents

Forge supportive partnerships among federal, state and local governments by coordinating efforts to target resources and revisiting regulations that impede joint efforts, incentivizing regional collaboration towards shared benefits

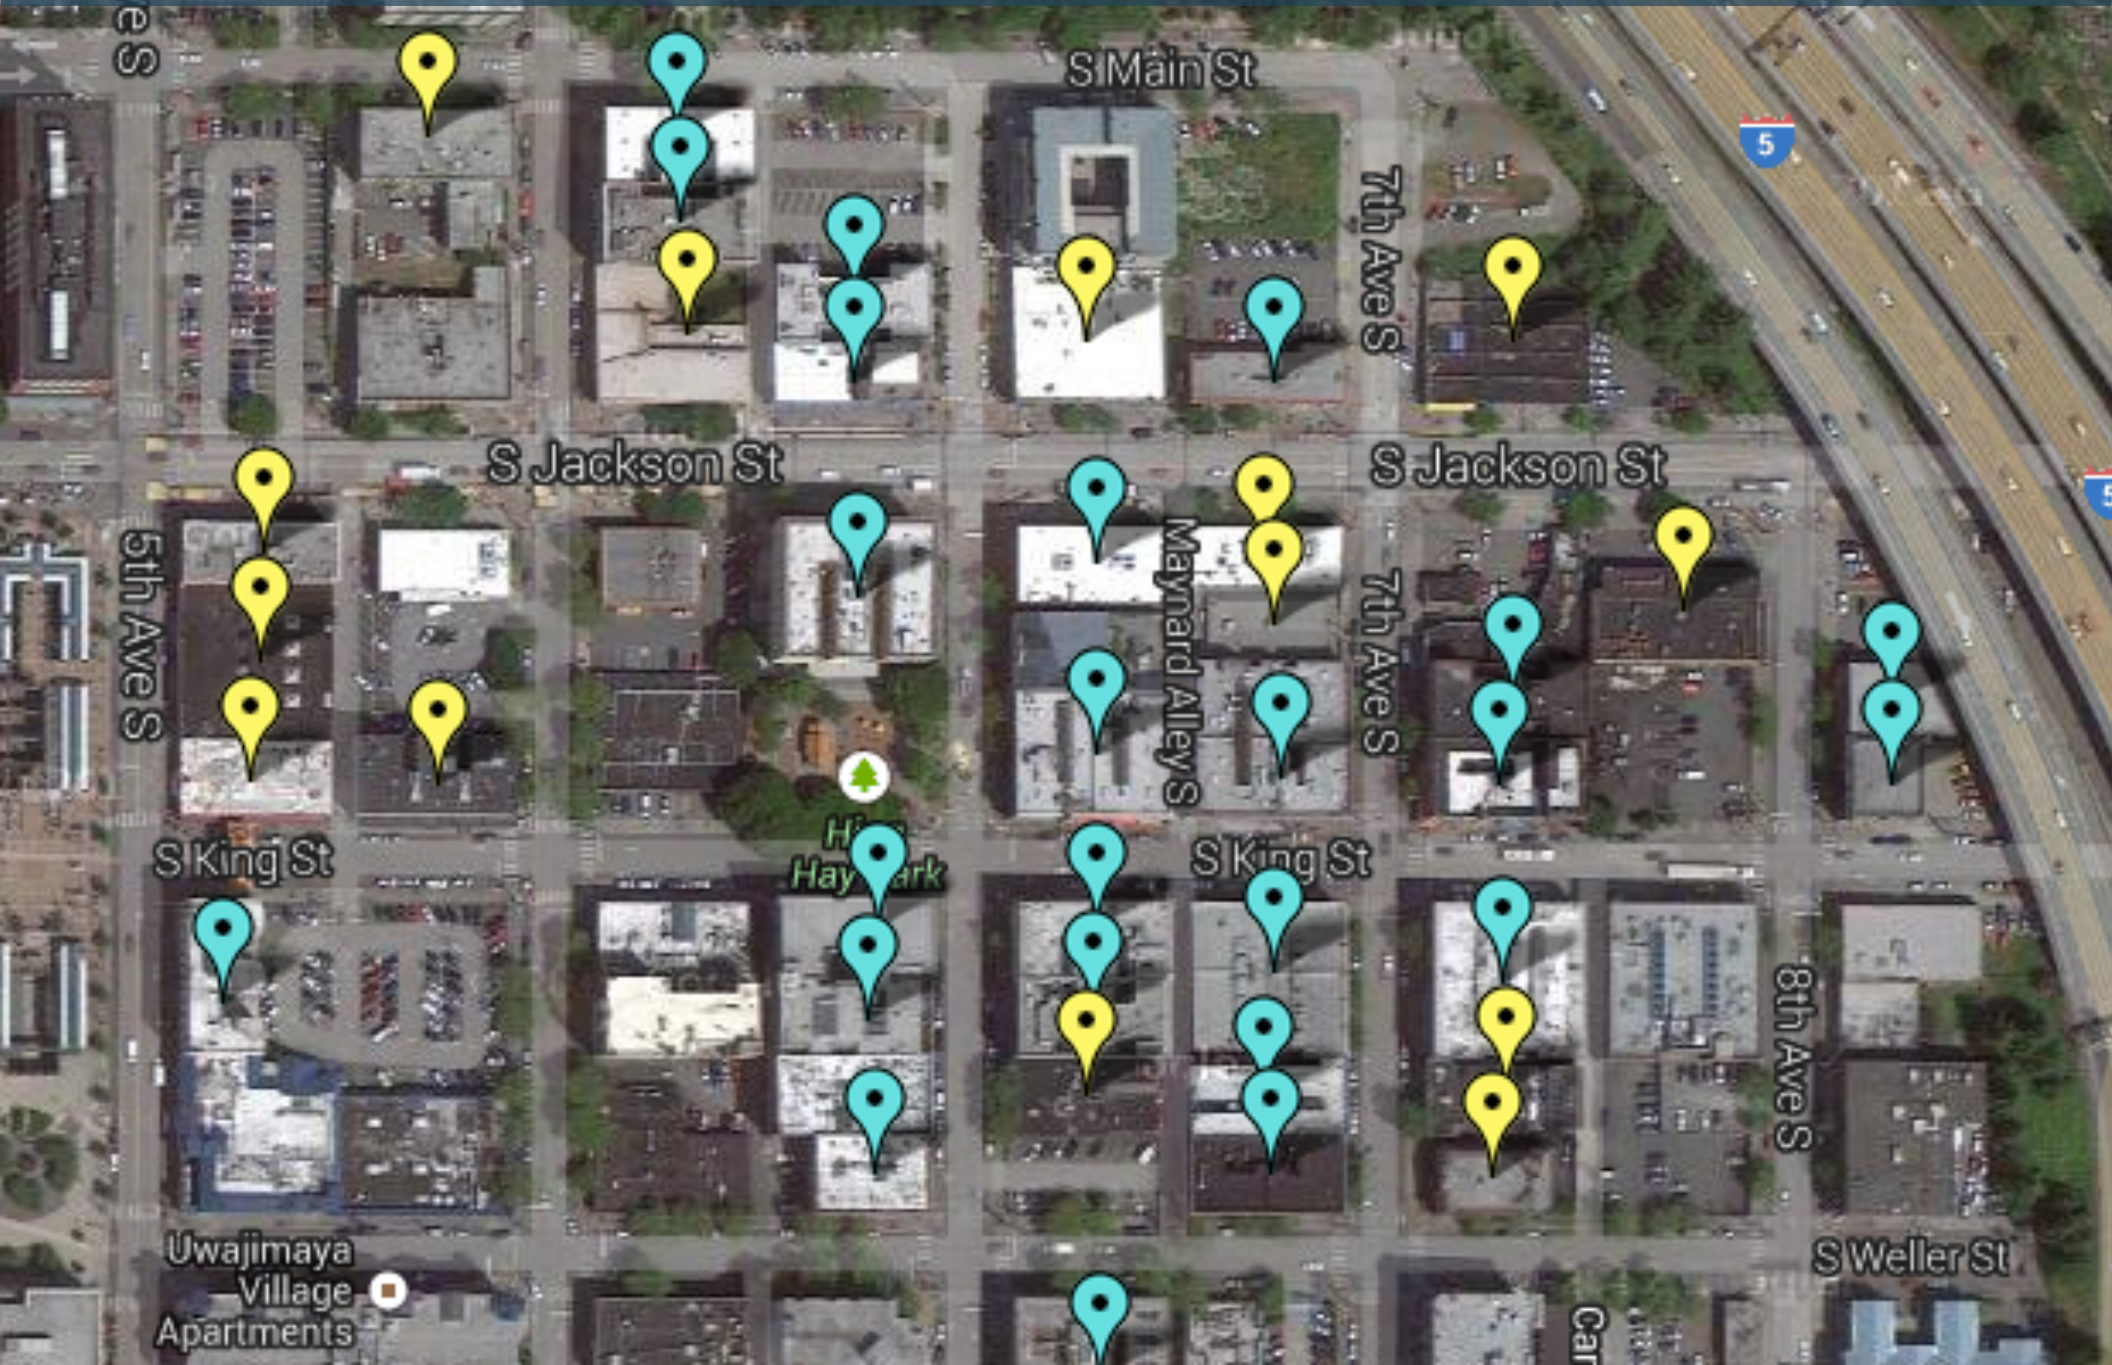

Build the city's ability to execute complex revival strategies by strengthening leadership, improving fiscal health, investing in information infrastructure and supporting a healthy business environment

CHAIR, PRESERVATION RIGHTSIZING NETWORK

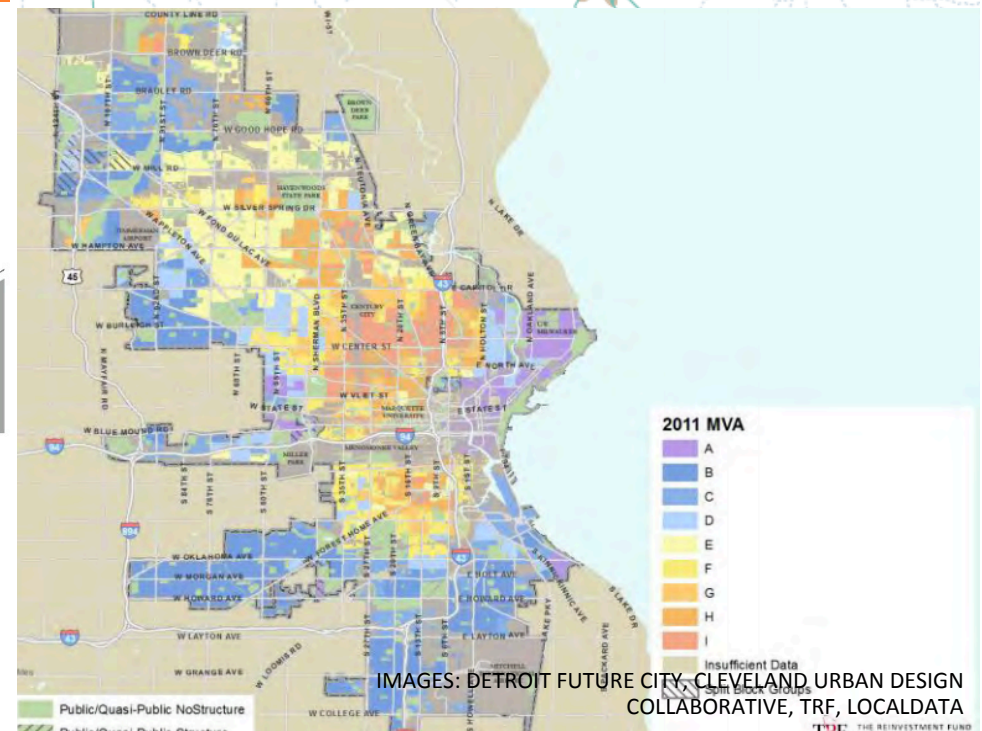

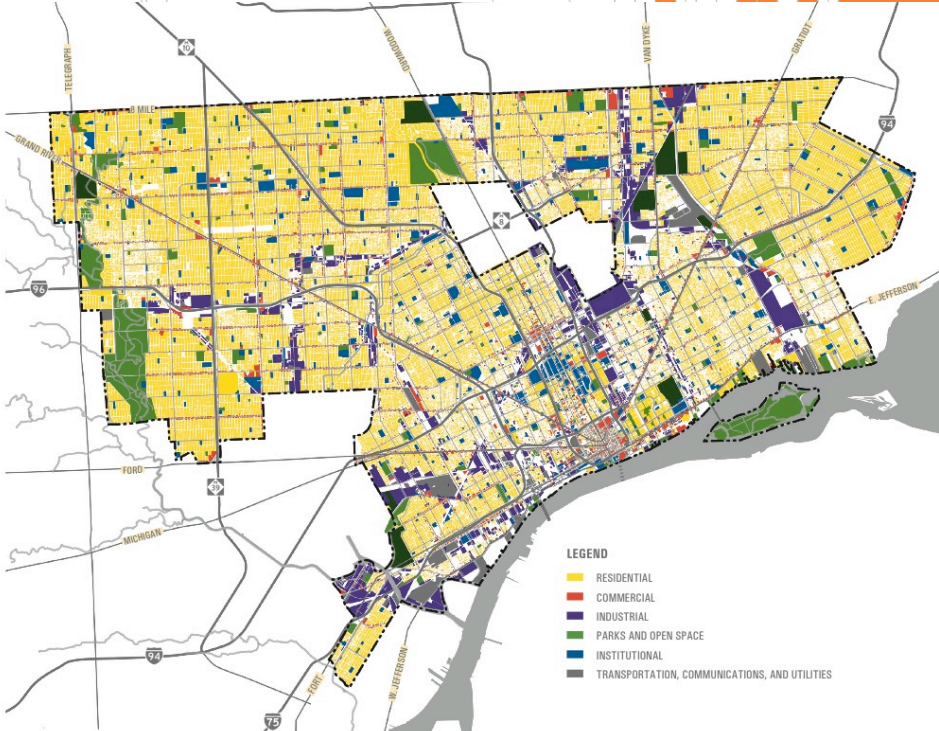

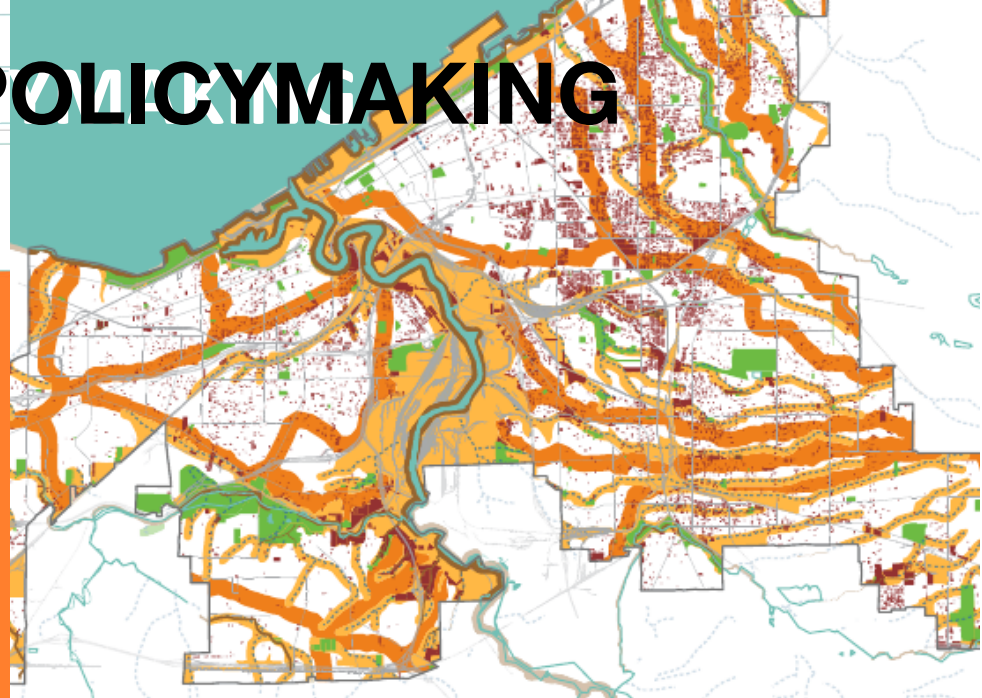

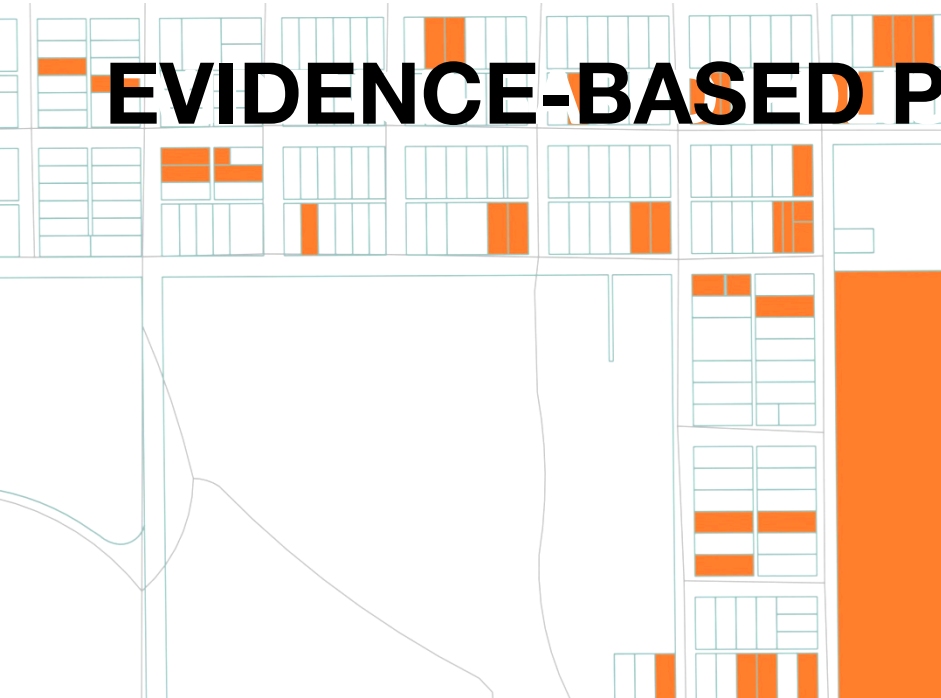

ASSET-BASED REVITALIZATION

IN LEGACY CITIES AND ELSEWHERE, CITIES SEEK TO LEVERAGE UNIQUE ASSETS:

- Human capital, local history and local culture
- Natural resources, geography and existing infrastructure
- Existing market strengths and networks, connections with regional and global economy
- Urban neighborhood characteristics: urban feel, walkability, historic fabric and diversity
- Civic, educational and cultural infrastructure
- Unused land: the economic, cultural and environmental value of vacancy

Gary, Ind. to Receive \$6.6 million of \$15 million allocated to address blighted homes

Gary, IND. – Lt. Governor Sue Ellspermann today announced that five Indiana cities received a combined award of more than \$15 million to help eliminate blighted and abandoned homes in those communities through the Hardest Hit Fund Blight Elimination Program (BEP). The five initial cities are East Chicago, Gary, Hammond, Indianapolis and Lawrence. They are the successful applicants in the first of six rounds of funding that will make a total of \$75 million available for blight elimination to reduce foreclosures.

City of Gary officials received word earlier today that it will receive \$6.6 million. Mayor Freeman-Wilson was

Awarded \$6.6 million

DETROIT HISTORIC RESOURCE SURVEY

- Goal: Provide preservation perspective to Motor City Mapping; inform demolition decisions in Detroit
- 18,000 properties surveyed
- Two weeks, volunteers, smartphones
- Asked just three questions about:
 - Architectural Integrity
 - Neighborhood Character
 - Block intactness

Up Next: Group Discussion!

- What do you want to measure in your communities?
- What have you heard of the case study metrics that resonate with you?
- What data do you use to make decisions in your communities currently? What would help better inform those decisions?

Today's Survey: Base Questions

First: Take a photo of the building!

- Is there a building? Yes/No
- If yes:
 - Building condition?
 - Building type?
 - Architectural character?
- If no:
 - Land use?
 - Maintenance level?
- All:
 - Street trees?
 - Sidewalk condition?

Optional checkboxes

- ☐ Community gathering space?
- ☐ Permeable pavement or other green infrastructure?
- ☐ Rehab or other investment happening?

+ Your question/metric additions!
